## NEWS of the WEEK

© News-Week, Inc.

**PRESIDENT'S TAX PLAN**  
Washington, D. C.—President Roosevelt's "soak-the-rich" tax program will be postponed for a time until Congress may clear away the remainder of the essential legislative program. Washington rumors it that the President's spokesmen are hoping and praying that he would take their advice and postpone floor action until next week, if not until the regular session. In any event, the consideration of this revenue bill will probably not be revived before next week.

### AUSTRIAN TRAGEDY

Vienna, Austria.—The murder of Chancellor Dollfuss a year ago Austrian Nazis put Kurt Schuschnigg to the fore as Austria's new chancellor. To everyone's surprise he showed himself a new strong man, crushed Nazis and communists. Recently the Federal Diet of Austria approved a bill authorizing return of exiled Hapsburgs and return of their confiscated property. Austrian nobles, seeing return of Hapsburg rule, cheered. But Romanian Foreign Minister Nicholas Titulescu issued a warning on behalf of the Little Entente: "mobilization will follow as matter of course if the dynasty is re-established in Vienna." Chancellor Schuschnigg was motoring near Linz with his wife Herma and their 9-year-old son Kurt. Suddenly their auto left the road, crashed into a tree at 50 miles an hour. Kurt Schuschnigg was instantly killed; young Kurt and the chauffeur escaped uninjured. As this news to press an investigation is under way to determine whether or not the "accident" was really an accident. Viennese Communists have temporarily called off scheduled demonstrations to determine which way the wind of Austrian politics will blow.

### BIGGEST BAG BURSTS

Rapid City, S. D.—Captains Orville Anderson and Albert W. Stevens of the U. S. Army Corps wanted to test Russia's unofficial altitude record of 13.7 miles into the stratosphere. Backed by the Army and the National Geographic Society, they spent \$2,000,000, waited weeks for favorable weather. At last results were favorable, and for about four hours helium hissed into the biggest balloon ever built—3,700 cubic feet. Some 20,000 South Dakota farmers gathered to watch the ascension. Suddenly, with a crackling noise, a gash opened in the giant bag. Its collapse ended with the second stratosphere failure of Captains Anderson and Stevens.

### NEW YORK SUFFERS ITS WORST FLOOD

Albany, N. Y.—The most destructive flood in the history of New York State battered 21 south-central towns. Arising from a three-downpour in the Finger Lakes-Catskill sections, it rolled on Pennsylvania, New Jersey and Maryland, ruining crops, destroying houses, rails, bridges. When the waters finally receded they left persons drowned, 1,200 homeless. Bills in New York alone, \$40,000,000 of property damage. At least 12 died; at Binghamton, where the water reached second stories, 16 lost their lives. Broken dams and roller authorities rushed to inoculate thousands waited anxiously—typhoid fever two weeks to develop.

### CONGREGATIONAL LADIES MIDSUMMER FAIR THURSDAY, AUG. 15

The ladies of the Congregational Church will hold their mid-summer fair on the afternoon of August 15. Committees have been appointed as follows: Fancy work table—Mrs. Van, Mrs. Wallace, Mrs. Hanscom, Mrs. Hastings, Mrs. Tuell. Apron table—Mrs. Knapp, Mrs. Whitney, Mrs. Farwell. Novelty table—Mrs. Philbrook, Mrs. Twaddle, Mrs. Barbara Lyon. Tea table—Mrs. Catherine Thurston, Mrs. Lord, Mrs. Edwards, Mrs. Hall. Food table—Mrs. Ramsell, Mrs. Valentine, Mrs. Austin, Mrs. Poole, Mrs. Garey. Candy table—Mrs. Ruth Chapman, Mrs. Cutler, Mrs. Carver.

Two new features of this sale are a "flower shop" and a department of the fancy table for babies and small children. All friends of the Parish are urged to make contributions to the usual tables, and offerings of small potted plants and cut flowers for the "flower shop" and inexpensive toys are articles of infant's and small children's clothing for the babies' department. In an upper room of the chapel will be a display of quilts, both antique and modern, in charge of Mrs. Alger and Mrs. Wallace. Owners of quilts of interesting patterns are requested to lend them for this occasion. Please notify Mrs. Alger or Mrs. Wallace of any such.

### BIRTHDAY PARTY FOR NEWRY COUPLE

A surprise birthday party was tendered Mr. and Mrs. Herbert Morton of Newry, Saturday evening by their children. The party gathered at Poplar Tavern and at nine o'clock went to the Morton home and took Mr. and Mrs. Morton by complete surprise. Following a pleasant evening spent with cards, Mr. and Mrs. Morton were presented with many useful and substantial gifts, among them a walnut chair. After the gifts were looked over and words of thanks expressed, refreshments of ice cream and cake were served, the birthday cake being made by Mrs. Guy Perkins, with the words "Happy Birthday, Mother and Dad" being part of the decorations.

Those present were: Mrs. Viola Lord and daughter Alzena, Mrs. Walter Reed, Mr. and Mrs. Francis Vail and children Francis, Jr., and Elaine, Mr. and Mrs. Richard Brown and daughter Sally, Herbert and Ramona Morton, Mr. and Mrs. Kenneth McMillin and children Kenneth, Jr., Ruth and Lois, Mr. and Mrs. Linwood Lowell and children Elizabeth and Norman, Jessie Brooks, Mr. and Mrs. Henry Learned, Mrs. Louise Learned, Mrs. Guy Perkins, Donald Frazier and the honor guests.

### VACATION SCHOOL STUDENTS VISIT CITIZEN OFFICE

The Citizen office was honored this Thursday morning by the visit of a group of 16 girls from the senior department of the Daily Vacation School. They were interested in the various steps in the production of a country newspaper and closely observed the operation of the linotype, making up and locking up several pages, and other work in the preparation of this week's Citizen.

Those present were: Dorothy Crooker, Aglene Garraway, Ida Lee Clough, Carol Robertson, Rosalie George, Dorothy Flish, Barbara Coddle, Alice Bennett, Joan Jackson, Ruth Bennett, Muriel Bean, Violet Brooks, Marion Chapman, Marion Waterhouse, Priscilla Farrell, Mary Louise Kellogg.

This group made a visit at the local Stowell-MacGregor Corp. plant Wednesday morning, where they learned a lot about one of the State's principal industries.

This year's school work closes on Friday evening with exercises at the Congregational Church. See the church news on page eight.

### BREAK AT CROCKETT'S

Robbers entered Crockett's Garage last Sunday and took between \$5 and \$6 dollars from the cash register. Entrance was gained through a back window and although several articles were tampered with, only the money was taken. The thieves were traced to Bryant Pond but their present whereabouts is not known.

### NEW OWNERSHIP AT SONGO POND

The beach property at the upper end of Songo Pond has been purchased by O. A. Twitchell, who has made quite extensive improvements. This place has been developed by Robert Clough for several years and last year was acquired by Abner Kimball. The beach is one of the best in this locality and is very popular, especially on week ends when crowds gather from Berlin and other centers. The grounds are ideal for picnic parties and a large number of swings have been added, while at the beach a new slide is offered, logs have been anchored for the convenience and safety of swimmers, and the old diving platform has been secured by piles so that it is much better in every way.

Mr. Twitchell is a native of Milan, N. H. He for some years carried on a drug business in Boston, but about 25 years ago returned to the S. of U. V. Auxiliary Thursday evening the following program was provided by the children:

Mr. Twitchell's location will be the scene of great popularity and activity, as his long experience with the public enables him to foresee and fulfill the people's wants.

### UNITED PARISH VACATION SCHOOL CLOSED—OUTDOOR SUNDAY SUNSET SERVICES

The Church Vacation School held at East Stoneham for the past two weeks under the direction of Oxford County United Parish was one of the best ever held in the Parish. Ninety-three were enrolled. The children came from Albany, East Stoneham, and North Waterford. The attendance has been extra good. The older boys class had a perfect record for the first week. The average attendance for the school was 75.

A series of Sunset Services has been arranged by the Parish. Each service will be held at some beautiful point in the Parish and good speakers have been engaged. Everybody is welcome. The first meeting was at Seaverville's field, Center Lovell, with Rev. Marcus Brownson, D. D., speaker. The rest of the schedule is:

July 21—Jones Field, North Waterford. Speaker, Rev. Harry Belcher, Brooklyn, N. Y.

July 23—Trout Lake Boys' Camp, East Stoneham. Speaker, Rev. H. M. Robinson, Philadelphia.

Aug. 4—Kokesing Girls' Camp, Waterford. Speaker, Mrs. Margaret Eggleston Owen, Hyde Park, Mass.

Aug. 11—Whitehead's Beach, Center Lovell. Speaker, Rev. Marcus Brownson, D. D.

Aug. 18—Kezar Lake Grange Hall, North Lovell. Cotton Blossom Singers, Piney Woods, Miss.

Aug. 25—McWain Homestead, East Waterford. Speaker, Rev. Kenneth Miller Madison, N. J.

Services are held at 7 p. m., D. S. T., except on Aug. 18 when the hour is 8 o'clock. Services at Trout Lake Camps, July 23, will be held under cover in case of rain. If raining at time of other meetings the services will be omitted.

Mr. and Mrs. George K. Wright of Framingham, Mass., were callers at Mrs. Rena Foster's Monday.

### GOOD WILL WORK EXPLAINED AT MEETING OF LADIES' AID

Miss M. Elizabeth Arnts of Portland, Field Secretary of the Good Will Home Association at Hinckley, was the guest speaker at the regular meeting of the Ladies' Aid of the Methodist Church in the vestry of the church last Thursday afternoon.

An interested group listened to the story of the beginning of this notable work, established 46 years ago by the Rev. George W. Hinckley, and with the use of the lantern operated by Rev. Percy J. Clifford, were shown colored slides of the buildings, homes for the needy, girls and boys, animals, birds, and flowers of the grounds. Stories of former Good Will boys and girls.

Envoy and Mrs. Gross of the Salmon River Army have been in town several days in the annual campaign for funds.

Mr. and Mrs. Walter Dean of North Anson were week end guests of their daughter, Mrs. Linton Partridge and husband.

Misses Pearl McCleary and Elizabeth Beane attended the circus at Rangeley Friday and returned to Kennebago Lake by seaplane.

Mrs. Mina W. Harriman is entertaining her niece, Frances N. Chapman, and friend Bertha Whittemore, both of Wollaston, Mass.

Miss Frances Carter of Newton, Mass., is spending the summer with her father, J. Herbert Carter, at their home at Middle Intervale.

Mrs. R. C. Foster and children and Miss Anna Campbell of New York are spending the summer at the Foster home on Sunday River.

Mrs. R. R. Tibbets, Mrs. W. H. Thurston and Miss Margaret Tibbets attended a meeting of the Bryant Pond Garden Club on Tuesday.

Mr. and Mrs. E. P. Lyon and daughter Catherine visited their daughter Barbara at Camp Waukeesa, Farmington Falls, Tuesday.

Mr. and Mrs. Sherman Flu of Harvard, Mass., and Mr. and Mrs. Eden Flu and sons of Detroit, Mich., are visiting Dr. S. S. Greenleaf and family.

Misses Dorothy Hanscom and Ruth Leavengood of the Gould Academy faculty arrived in New York yesterday on their return from a European trip. Miss Leavengood will spend the rest of the vacation at her home in Ohio, and Miss Hanscom is at the Hanscom summer home at Mechanic Falls.

Miss Faye Sanborn is enjoying an instructive and delightful trip to New York City, attending the various openings of the new autumn style shows with Miss M. E. Johnson, whose gown shop in Copley Square, Boston, she is studying management and buying for the exclusive clientele for which this shop is noted. Miss Sanborn is especially fitted for this position both in talent and training, having specialized in costume design in the art school from which she was graduated.

### LOCKE MILLS LEGION POST TO STAGE BENEFIT DRAMA

The Jackson-Silver Post, No. 63, American Legion, of Locke Mills, will sponsor the drama, "The Adventures of Grandpa," presented by West Paris Grange, No. 293, Friday evening, July 19, at the Locke Mills Town Hall curtain at 8:30 D. S. T.

The proceeds will be used for a sick veteran and his family. This 3-act comedy comes from West Paris highly recommended and will give many a laugh.

Included among the many specialties will be Esther T. Anderson, monologist of Norway; The Smoky Mountain Mountaineers, the baby tap-dancer, Cathryn Cummings of West Paris; and the talented young singer, Miss Margaret Shaw of South Paris. An added attraction will be a dance by Miss Frances Wescott of Lewiston.

The characters in "The Adventures of Grandpa" follow:

Montgomery Ray, "Monte," Grandpa's grandson, Hartley Ward, Tod Hunter, a young dancing master, Henry Stone, Ola Hammerhead, "Grandpa," from Yellow Bud, Ohio, Simeon Farr Officer McCormack, who seen his duty and done it, Alanson Cummings, Lucy Hunter, our little wife, Martha Gardner.

Dorothy May, just out of college, Fannie Cummings, Mrs. Pansy Hopscotch, crazy about the nobility, Lucy Barrows, Marie Ribeau, the girl from Paris, Doris Slattery.

Kloomy, twelve days from Copenhagen over, Edith Lang.

Mrs. Agnes Goddard, widow of the late Fritz A. Goddard, died at her home on High Street Sunday afternoon about 2:30 o'clock.

Mrs. Goddard was born March 12, 1864, at Newark, N. J., the daughter of John and Elizabeth McCarter.

She came to Bethel when a young woman and in 1883 was united in marriage with Fritz A. Goddard of this town. Four children were born to them.

She is survived by three sons, George Goddard of Plymouth, N. H., Gard of Norway and Robert of Bethel; three grandchildren, Herbert, George and Phillip Goddard of Plymouth, N. H.; a sister, Mrs. Jennie Webb of Littleton, N. H., and several nieces and nephews.

Funeral services were held at Greenleaf's funeral home Tuesday afternoon, Rev. P. J. Clifford officiating. Interment was at Riverside Cemetery.

### BETHEL AND VICINITY

Mrs. Harry Mason of Boston is visiting her parents, Mr. and Mrs. E. C. Park.

Miss Margaret Hamlin returned home Saturday after spending the week at Portland.

Rev. and Mrs. S. T. Achenbach of Farmington were calling on friends in town on Monday.

Dr. Howard Tyler and family of Norway are spending their vacation at Harry Jordan's camp on Alder River.

E. P. Lyon and D. G. Brooks were shown colored slides of the buildings, homes for the needy, members of the party enjoying the girls and boys, animals, birds, and Shriners' cruise at Portland Wednesday.

Envoy and Mrs. Gross of the Salmon River Army have been in town several days in the annual campaign for funds.

Mr. and Mrs. Walter Dean of North Anson were week end guests of their daughter, Mrs. Linton Partridge and husband.

Misses Pearl McCleary and Elizabeth Beane attended the circus at Rangeley Friday and returned to Kennebago Lake by seaplane.

Mrs. Mina W. Harriman is entertaining her niece, Frances N. Chapman, and friend Bertha Whittemore, both of Wollaston, Mass.

Miss Frances Carter of Newton, Mass., is spending the summer with her father, J. Herbert Carter, at their home at Middle Intervale.

Mrs. R. C. Foster and children and Miss Anna Campbell of New York are spending the summer at the Foster home on Sunday River.

Mrs. R. R. Tibbets, Mrs. W. H. Thurston and Miss Margaret Tibbets attended a meeting of the Bryant Pond Garden Club on Tuesday.

Mr. and Mrs. E. P. Lyon and daughter Catherine visited their daughter Barbara at Camp Waukeesa, Farmington Falls, Tuesday.

Mr. and Mrs. Sherman Flu of Harvard, Mass., and Mr. and Mrs. Eden Flu and sons of Detroit, Mich., are visiting Dr. S. S. Greenleaf and family.

Misses Dorothy Hanscom and Ruth Leavengood of the Gould Academy faculty arrived in New York yesterday on their return from a European trip. Miss Leavengood will spend the rest of the vacation at her home in Ohio, and Miss Hanscom is at the Hanscom summer home at Mechanic Falls.

Miss Faye Sanborn is enjoying an instructive and delightful trip to New York City, attending the various openings of the new autumn style shows with Miss M. E. Johnson, whose gown shop in Copley Square, Boston, she is studying management and buying for the exclusive clientele for which this shop is noted. Miss Sanborn is especially fitted for this position both in talent and training, having specialized in costume design in the art school from which she was graduated.

### MRS. AGNES GODDARD

Mrs. Agnes Goddard, widow of the late Fritz A. Goddard, died at her home on High Street Sunday afternoon about 2:30 o'clock.

Mrs. Goddard was born March 12, 1864, at Newark, N. J., the daughter of John and Elizabeth McCarter.

She came to Bethel when a young woman and in 1883 was united in marriage with Fritz A. Goddard of this town. Four children were born to them.

She is survived by three sons, George Goddard of Plymouth, N. H., Gard of Norway and Robert of Bethel; three grandchildren, Herbert, George and Phillip Goddard of Plymouth, N. H.; a sister, Mrs. Jennie Webb of Littleton, N. H., and several nieces and nephews.

Funeral services were held at Greenleaf's funeral home Tuesday afternoon, Rev. P. J. Clifford officiating. Interment was at Riverside Cemetery.

THREE GOOD WILL BOYS

GRANGE COTTAGE GIRLS

## NATIONALLY KNOWN MAINE HOME LOCATED IN SOMERSET COUNTY

Good Will Home Association Was  
Organized October 5, 1889. Rev.  
George W. Hinckley, D. D.  
Was Founder

An institution in which all New England people take a just pride is the Good Will Home Association organized October 5, 1889, which has trained thousands of boys and girls spiritually, mentally and physically during the 46 years of its existence.

The Good Will Home Association has had but four presidents, Mr. W. Hinckley, the fourth elected in 1927. The Association has had in the 46 years but two superintendents, G. W. Hinckley from 1889 to 1919, and his son, Walter P. Hinckley from 1919 to the present time.

The Good Will Home Association has three sources of income, viz: such sums as friends of boys and girls are able to pay toward its support; income from permanent endowment and contributions from thoughtful and benevolent people. The amount needed each year in contributions is about \$30,000. All checks should be made payable to the Good Will Home Association.

The Good Will Home Association has the following material equipment for future activities: two thousand acres of land situated in the Town of Fairfield (Post Office, Hinckley) Maine, and in Clinton in Kennebec county. The largest portion of this territory is west of the Kennebec river with about four hundred acres on the east side, including the Good Will Pines. The public or educational buildings on the Good Will premises include the following:

The Prescott Memorial, which is in the Administration Building, is the gift of Mr. Amos L. Prescott of New York, in memory of his parents. It includes offices, store, Prescott Hall which seats 750; Tracy Hall, seating capacity 100; a three manual Hall pipe organ, piano, a well-equipped kitchen; a dental office, the gift of Drs. W. D. and M. L. Tracy of New York; the Harriet B. Broadway Medical Room with surgical equipment, the gift of Mr. William G. Broadway of New York; a barber shop and the tower clock.

The \$125,000 high school building, dedicated in 1931, the gift of Dr. and Mrs. George G. Averill of Waterville, donors of many other fine buildings at Good Will. The high school accommodates about 250 students, has ample classroom facilities, two commercial rooms, assembly hall, study hall, reference room and physics laboratory.

The Moody Memorial Chapel, the gift of Miss Frances Moody of Bath, Maine, seating 600, with a two manual Skinner pipe organ in memory of Mr. and Mrs. E. S. Converse.

### Rowe Hill, Greenwood

I agree with Mr. D. S. Brooks in his remarks in the last week's Citizen. It is much more interesting since the addition of the magazine section.

Edgar Dunham is sawing pulp in the woods at Greenwood Center.

Norma Martin, Greenwood Center, spent the day with her mother recently.

Ethel Martin of Greenwood Center visited Winifred Bryant one day last week.

Vera Dunham spent Saturday night with Winifred Bryant.

G. W. HINCKLEY

of Malden, Mass., a piano and the Moody Memorial room with portraits of the Moody family. In the chapel is located the Biblical Library opened July 27, 1930. On the shelves are many copies of very old Bibles and on one shelf are 40 different translations of the Bible.

The L. C. Bates Museum, made possible through the generosity of Mr. L. C. Bates of West Paris, Maine, has fine collections in geology, mineralogy, zoology, ornithology, anthropology, history, ceramics and art.

The Carnegie Library is the gift of Mr. Andrew Carnegie and is situated on the boys' farm near the school building. It houses nearly 20,000 volumes of varied character, including the S. H. Boardman agricultural library, and Judge Nathan Hobbs' law library.

The Emily F. Ryerson Memorial is the gift of Mr. and Mrs. A. N. Ryerson of Noroton, Conn., in memory of their daughter, Emily F. Ryerson. It stands near the girls' cottages and the Edwin Gould School Building, and houses the girls' library, also the John Francis Sprague historical library.

The territorial basis for the work of the Good Will Home Association consists in large part of what had become "run down" or neglected farms previous to their purchase for philanthropic and educational purposes.

The Good Will Home Association is primarily a home building organization; but wherever there are homes and children there must be school and church. The Association began to build homes; the school house and the chapel followed.

Religious services which are non-sectarian: Four Sunday School

Mr. and Mrs. Elton Dunham visited her brother Floyd Morgan at South Paris Sunday.

Everett Cross of Rowe Hill and Vera Dunham, of this place, were supper guests of Winifred Bryant Sunday.

Leslie Estes is cutting the hay on the Wesley Ring place where he is living at present.

Mr. and Mrs. Durward Lang and Merle, and Mr. and Mrs. Beryl Martin, Greenwood Center, went on a picnic near Concord Pond, Sunday.

Mrs. Hall is visiting her daughter, Mrs. Mont Brooks.

Ernest Brooks, Mont Brooks and family were callers at Mrs. Rose Brooks, South Paris, last Friday evening.

Mr. McKillop and Miss Stoetzer of the Baptist Church, Bryant Pond were visitors at the Christian Endeavor meeting here last Tuesday evening, July 9, taking charge of the meeting and making it much more interesting. Their coming was a surprise which we hope will be repeated often in the future.

The usual social was held at the Club last Saturday evening.

The Sewing Circle met with Margaret Bryant last Wednesday.

services in the school buildings at eleven on Sunday. Chapel at 2 P. M. with a visiting pastor in charge and philanthropic undertaking if Mr. Hinckley is not in the pulpit. "The Good Will Idea."

In the evening at seven, another service in the chapel which is often conducted by some of the older children.

The High School curriculum provides only for the college preparatory course; the agricultural course, wood working and forestry with gardening is acquired from actual practice on the farms and in the homes, and does not deprive the children of the intellectual training of the high school course. Graduates from the High School may enter any college in the United States without examination, and many boys and girls do work their way through after leaving Good Will.

Many of these graduates may be found in outstanding positions in business, as teachers, professors, nurses, social workers, ministers, heads of other institutions of learning and philanthropy. The cure for leprosy was discovered by a former Good Will boy while president of the University of Honolulu. Rev. Neal Bousfield, of Lamoline, a former Good Will boy, has just been selected as assistant pastor to Rev. Orville Guptill, of the Maine Seacoast Mission at Bar Harbor.

The names of the homes for boys—the cottage system, fifteen boys with a cottage matron—and

the year of dedication follows: Good Will Cottage, acquired by the Founder by titling, supplemented by small gifts, Sept. 1, 1889. Golden Rule Cottage, 1891; Bailey, 1893;

Fogg, 1893; Christian Endeavor in 1894; Hall in 1895; Bancroft-Foote in 1904; Whitney Home in 1909;

Winthrop Cottage also given by C. M. Bailey in 1911; Guilford in 1914;

Keyes in 1924 and a new cottage for boys in the course of construction at the present time, provided for by Will of the late Miss Anna Pike of Waterville, and carries with it an endowment of \$45,000.

It was thought best to build this at this time, even when funds for current expenses are so much needed, as the money was only provided for the cottage and the room for boys applying is much needed. The territorial basis for the girls' department consists of the following:

The Spalding farm (1895), purchased for the beginning of the girls' department, by Mr. E. S. Converse of Malden, Mass., at the same time that he purchased the Blackwell Farm.

The Hoxie Farm (1927), presented by Mr. W. B. Kendall, of Bowdoinham, Maine, and named in his honor "Kendall Annex." This land was and is, without doubt, the best farming land owned by the Association.

This territory and the several farms for boys, offer a great variety of soil ranging from heavy clay through all grades to "The Sand Dunes" on the "Besse Reservation,"

Ernest Brooks, Mont Brooks and family were callers at Mrs. Rose Brooks, South Paris, last Friday evening.

Mr. McKillop and Miss Stoetzer of the Baptist Church, Bryant Pond were visitors at the Christian Endeavor meeting here last Tuesday evening, July 9, taking charge of the meeting and making it much more interesting. Their coming was a surprise which we hope will be repeated often in the future.

The usual social was held at the Club last Saturday evening.

The Sewing Circle met with Margaret Bryant last Wednesday.

Donald Brooks visited his brother Carl at Henry Noyes, Curtis Hill, last week.

Ray Hanscom went to Newry on Sunday.

### Albany—Watertown

Hervey Kimball is building a camp on a huge boulder in one of the Five Keas.

Irving Green and Charles Learned are kayaking for Ernest Brown.

Henry Sanderson and W. A. Lord

were in Oxford, Monday.

Henry Sanderson has finished work for W. H. Brown.

Education, Discipline, Industrial, Recreation, Religion." That is the spirit of the Good Will Home Association.

The spirit which they endeavor to inculcate is symbolized by the Good Will Totem which is a mounted beaver in the corridor of the Administration Building, with a slogan based on the beaver's habits, viz: "He works when he plays; he plays when he works; he is strong on individual effort, yet he labors for community good; also by the Good Will Emblem, presenting the four great interests at Good Will—the physical, the mental, the intellectual, the spiritual—with full recognition of each without undue emphasis on any one; also the Good Will Flag, white field carrying the Good Will Emblem in orange and black which are the Good Will official colors.

This worthy institution, caring for about 260 needy boys and girls annually is seriously handicapped for funds. A deficit of nearly thirty thousand dollars must be met. Current expenses for the year is needed, and Mr. Hinckley, at the age of 82, is courageously starting a

Endowment Fund to take the place of non paying investments, to be completed at the fiftieth anniversary in 1939, to insure to the children of the future the care and training, that Good Will has so rendered for nearly fifty years.

Please make checks payable to Mrs. G. G. Averill of Waterville, Maine, in memory of her husband's mother, Mrs. Leah S. Averill.

Anthony Cottage (1930), the gift of Miss Kate J. Anthony of Auburn, Maine, by approval of her brother, Dr. Alfred Williams Anthony, of New York.

The Good Will Spirit is symbolized by the Good Will Roundel, a mural decoration in the Administration Building painted by Mr. Charles D. Hubbard and which symbolizes Forestry, Agriculture, Mechanical Arts, Organized Athletics, Architecture and Building, Science and Literature, and carries with it an upkeep fund.

Averill Cottage (1927), the gift of Mrs. G. G. Averill of Waterville, Maine, in memory of her husband's mother, Mrs. Leah S. Averill.

Anthony Cottage (1930), the gift of Miss Kate J. Anthony of Auburn, Maine, by approval of her brother, Dr. Alfred Williams Anthony, of New York.

The Good Will Spirit is symbolized by the Good Will Roundel, a mural decoration in the Administration Building painted by Mr. Charles D. Hubbard and which symbolizes Forestry, Agriculture, Mechanical Arts, Organized Athletics, Architecture and Building, Science and Literature, and carries with it an upkeep fund.

Abraham Lincoln has said, "If the Lord has a finer work for human beings to do, than to give a child a home, but if so, I do know what it is."

You will enjoy a visit to Good Will. Try to spend a day there.

ROW OF COTTAGE HOMES FOR HOMELESS AND DESERVING BOYS AND GIRLS ON PAGE TERRACE AT GOOD WILL HOME

## AN ANCIENT SEA MONSTER

Station DSB

Thank you, neighbors! I am glad that many of you enjoyed my talk, last week, on "Neptune's Fish." I wish all would enter themselves as to just how you feel about this topic.

Now, friends—and I mean "listening in" this means more than ever before—what do you think of this fish story? I know the story of the ordinary "fish" is seldom credited as the very best of the auditors. Before I read want to say that, as I stand here, as much younger: aboard a boat on the salt water, I enjoyed the time spent can be turned into appropriate language broadcasts. It was won by some curious objects all out. One creature was a small sized porpoise: bluish-grey, with a long, flat, beak-shaped back, which to a casual observer looks much like a porpoise. At this point, I was very curious to see here a ferocious sea serpent, with a bold, venture. He had, with a long stretch of his body, swelled several feet above the surface of the water, as he lay along. Undoubtedly his mouth was prompted by a ravenous appetite for something delicious.

Grange Cottage (1897), built by the Granges of Maine. The Granges are liberal in their contributions toward the maintenance and upkeep of Grange Cottage; they have

also created one scholarship of \$3,000—the "Grange Scholarship."

Redington-Gilmour (1915), the gift of Mrs. Caroline G. Redington, of Skowhegan, Maine, in memory of her parents. The gift was accompanied by fifteen scholarships of \$3,000 each, and an upkeep fund.

Averill Cottage (1927), the gift of Mrs. G. G. Averill of Waterville, Maine, in memory of her husband's mother, Mrs. Leah S. Averill.

Anthony Cottage (1930), the gift of Miss M. Elizabeth Arnts, 129 Portland, St., Portland, or mail directly to Rev. George W. Hinckley, Hinckley, Maine, and so assure him of your interest and support with him in this notable work.

When I am wrapped in my thoughts, my mind is fully concentrated, and I forget the passing of time and better lead up by degrees to the next "fish story;" and not too lengthily introductory.

Please make checks payable to the Good Will Home Association and mail to the Field Secretary, Miss M. Elizabeth Arnts, 129 Portland, St., Portland, or mail directly to Rev. George W. Hinckley, Hinckley, Maine, and so assure him of your interest and support with him in this notable work.

When I am wrapped in my thoughts, my mind is fully concentrated, and I forget the passing of time and better lead up by degrees to the next "fish story;" and not too lengthily introductory.

## AN ANCIENT SEA MONSTER

Station DSB

Thank you, "neighbors! I am very glad that many of you enjoyed our talk, last week, on "Neighborhoods." I wish all would express themselves as to just how you regard this topic.

Now, friends—and I hope more than ever before—what do you say before I finish this talk—to hearing a fish story? I know that the ring of the ordinary "fish story" is seldom credited as the very truth by the auditors. Before I relate it, I want to say that, as I stand here, recall a special outing, when I was much younger, aboard a fishing boat on the salt water. How I hoped the time spent cannot be put into appropriate language in these broadcasts. It was wonderful! I saw some curious objects moving out. One creature was an enormous sized porpoise, rising and falling in the swell, showing his high-shaped back, which to a casual observer looks much like a mighty, revolving, mill-wheel. At this point, I was very close to here a ferocious sea serpent, had made his bold venture. His ugly head, with a long stretch of neck, towered several feet above the surface of the water, as he swam along. Undoubtedly his mental surmise was prompted by a ravenous appetite for something besides "sea-food." A dainty morsel like a "landlubber" would vary his menu considerably; and likely would be satisfying to his taste.

The sea, as well as the mountains, has wondrous attractions for our speaker. I have lived near the mighty deep, and heard its music on the "soft pedal;" and also the opening roar of its bass notes as the breakers dashed against the huge cliffs or rugged shore, in thunderous peals, like a deadly monad. To say the least, its majestic!

When I am wrapped in a theme my mind is fully concentrated; and forget the passing of time. So, I had better lead up by degrees to "fish story;" and not indulge in a too lengthy introduction. O. K.—we will proceed. It has everything to do with Mr. Jonah Amitai. He was a Palestinian: born in Bethlehem, in the Province of Zedron, during the reign of Herod the Great. Our friend, Jonah, while very young attended the theological school in Lower Galilee; and was educated: holding the fifth honor in the class of Minor Prophets. I have good grounds for my theory that while he was a student that he paid his tuition and other expenses by raising and selling certain vegetables very similar to our gourds. At the fruit from his plants exuded, in their queer shapes andistic colorings, anything grown this part of the world. "But rather a small enterprise," you say. —I would not agree with that. Since it was such a success, was very profitable, financially; and he dealt squarely with his customers. He would remind one much his careful selection of varieties and his thorough cultivation of the same to produce new kinds, of the like Luther Burbank. We do not have to strain our imagination to see him busy in his greenhouses, experimenting with different vines, produce the choicest specimens possible. These fruits were carefully picked and dried and made the most attractive indoor ornaments for the homes of the well-to-do." Many times they were used to decorate public parks and playgrounds. Jonah's gourds won enviable reputation. He could not bear to lose any of his plants, learned to love them as ardently as he esteemed his studies at the seminary. But he was headstrong, and could not be advised by his teachers. This characteristic got him in "a wrong" on more than one occasion.

God knew that He had a difficult fellow to deal with—one who just had a plenty of "line;" being forced to thrash about in the waters of disappointment and trial, he should learn a sad lesson and recognize "How frail is man!" this time, the Almighty selected a large fish for carrying out his purpose. That fish had special care and protection, and it soon became a great sea monster: much to be feared by navigators.

Now comes the dramatic part of our story. God—Jehovah, who delights in mercy, sought to give the wicked people of Nineveh one more chance to repent of their sins. Their cup of corruption was full to overflowing. Jonah was commissioned as prophet-evangelist. This city was within his jurisdiction. Therefore, it was his duty to give warning of a coming judgement. He was seized with the conviction that he ought to go to those people and give the Lord's message. But he feared their scorn and probable persecution, so he said to himself, "A change of scenery will drive these haunting thoughts from my mind; and I have always wanted to visit Tarshish; and a short land-journey will take me to the port of Joppa. There, I will buy my ticket and board the next merchant ship that passes that way. The Almighty can find somebody else to fill my place and take the curses of those Ninevites. I shan't be there!"

It's most entertaining reading; and it's outlined in the little book of the Old Testament, named for our hero (The Book of Jonah). The "runaway" feels guilty, like others whose conscience troubles them, after disobedience of a divine mandate. That joyous anticipation of a happy voyage faded away in gloom and terror. He was restless and confided to the seamen that he had fled from duty. As a last resort—to drown these accusing thoughts he went down into the lower hold of the big ship and listened to the breaking of the waves against its huge planks. Eventually he lapses into unconsciousness: only to be suddenly and violently roused from his slumber by the captain of the boat. It was hard enough for those officers and men to toil against the winds and the foaming sea without having to listen to the screams of a man in a nightmare. They were thoroughly convinced that this fellow was a fugitive from justice and that the gods were showing their displeasure by sending that terrible storm upon them, because they had received him as a passenger. They had already lightened the ship by tossing overboard their precious cargo of wares that represented a fortune to their Company. But, nevertheless, the vessel continued to sink.

Folks, I have entirely forgotten the time! I am indeed sorry to "cut short" some one else who is now due to speak over the air. I will try and make it right with the other gentlemen, if this station will allow me one more moment to give you a clear picture of what happened. Jonah confesses his guilt and pleads to be thrown overboard for he knows that then the sea will be calm. He realizes that he deserves punishment and a watery grave. My respect begins to rise for this poor fellow as his heart grows honest and his love returns for God. I do not like to think now that he must die. What happens as Jonah slips overboard! That "monster" of a fish (NOT a whale) is right on hand at the tick of God's watch to prevent Jonah from drowning. The beast gulped down his victim, bones and all. Here was the biggest room for prayer that the prophet had ever known. God furnished oxygen and air to keep him alive. The fish finds that the "lump" in his stomach is an indigestible thing, and he vomits the object of his discomfort upon the shore.

In conclusion—The people of Nineveh hear a real message from Jehovah, and they repent, and escape judgment. God wants earnest, sincere, men and women to do the difficult things for him. He is calling you, now, as you listen! Do not wait for a "monster" of sorrow to seize you. God loves you. Amen!

This is the Evangelical Broadcasting Service of Oxford County. Friends, you have been listening over-time today; but our speaker was so in earnest that he entirely forgot his allotted time. We want you all to be with us "on the air" next week. Cordially yours,

"Will B. True"

A city news reporter in describing the masticating equipment of a cow said: "The cow has no upper plate. All of her teeth are parked in the lower part of her face. This arrangement was perfected by an efficiency expert to keep her from gumming things up. As a result she bites up and gums down."

## Reveals Shorthand Used in Egypt Centuries Ago

Proof that shorthand much like the modern article was used in Egypt at least sixteen centuries ago and probably much earlier has been collected by H. J. M. Milne, of the British museum, in London, including an ancient shorthand dictionary written on papyrus, parts of what must have been some student's exercise sheet like a modern stenographer's notebook, but written on wax, and finally a contract between an intending student and stenographic business college.

The language of the shorthand documents is not Egyptian, but Greek says a writer in the Baltimore Sun, that language having displaced ancient Egyptian several centuries before these shorthand documents were written, which is believed to have been about 250 A. D.

The principle on which the ancient shorthand was constructed is much the same as today. Simple signs, easy to write and easily connected with each other, were used to represent the ordinary Greek letters and thus the sounds of Greek speech, Greek being a language in which the sound and the letter agree much more closely than in English.

What now are called word signs were used for common words, leaving out a large part of each word and writing, for example, only the first and last letters. Some whole phrases in common use, such as the ornate phrases for beginning and ending letters were treated in the same way. The business college contract shows that the student was to pay 40 drachmas in advance, equivalent to about \$10. Another 40 drachmas were to be paid when the boy had mastered the shorthand textbook and a third 40 drachmas when he was able to write fluent shorthand and "read it faultlessly."

## SOUTH ALBANY

Miss Grace Bartlett from Locke Mills spent the week with Mr. and Mrs. Roy Wardwell.

Rev. W. I. Bull preached at Albany Sunday evening.

Leon Kimball, son Ivan and daughter, Lucy, were in Portland Sunday to see Mrs. Kimball who is a patient at the Ear and Eye infirmary there.

Robert Hill is having for F. E. Scribner.

Mr. and Mrs. Roy Wardwell were dinner guests of Mr. and Mrs. Cecil Kimball, Sunday.

W. G. Fliske is shingling his barn. Henry Roife is doing the work. Mrs. Nancy Andrews and Mrs. Bertha Andrews attended the funeral of Paul Renwick, at Bolsters Mills, Monday afternoon.

Mr. and Mrs. Winfield Allen called on Mr. and Mrs. Howard Allen, Sunday.

An Oxford County woman says: "I invert a pan over my pressing irons when I place them on the stove and they heat many minutes sooner than otherwise."

## PYROIL

SIMPLY ADD TO GAS AND OIL

The greatest of authorities favor and endorse the use of PYROIL for better motor performance. Ask for the facts.

Is your car losing its original pep? Disappointing on pick-up? Overheating on long runs? Then, a pleasant revelation is in store the first time you use PYROIL.

PYROIL withstands the withering heat of the motor head where ordinary oil burns into carbon. Supplies constant lubrication to valves, stems, guides, pistons, cylinder walls, that no motor heat can affect. Freezes sticky valves. Seals rings. Banishes hard carbon. Makes your motor better every mile you ride.

Drive into your filling station or garage and ask more about PYROIL. You'll be surprised at the amazing "history of Pyroil."

Manufactured and Guaranteed by PYROIL CO., LA CROSSE, WIS., U. S. A.

THE OXFORD COUNTY CITIZEN  
PUBLISHED THURSDAYS AT  
BETHEL, MAINE  
CARL L. BROWN, Publisher  
Entered as second class matter,  
May 7, 1903, at the post office at  
Bethel, Maine.

Single copies of the Citizen are  
on sale at the Citizen office and  
also by

W. E. Bossman, Bethel  
Donald and Irving Brown, Bethel  
Lawrence Perry, West Bethel  
George Stearns, Hanover  
Leo Estes, Locke Mills

Any letter or article intended for  
publication in the Citizen must  
bear the signature and address of  
the author and be written on only  
one side of the paper. We reserve  
the right to exclude, or publish  
contributions in part.

THURSDAY, JULY 18, 1935

BETHEL NEEDS  
More and Better Sidewalks—winter  
and summer,  
Rural Fire Protection,  
Night Watchman—All the Year,  
Enforced Traffic Rules,  
Australian Bullet System for Town  
Meetings.

Many Bethel people have no con-  
ception of the volume of traffic at  
the foot of Church Street, where  
routes 2, 26, 5 and 35 appear a  
hopeless tangle to many strangers.  
Of no help in this confusion is the  
collection of advertising signs  
in various places, seeking to direct  
the befuddled victim to a variety  
of camps, inns, lunches, et cetera;  
all this apparently in violation of  
a law which seeks to do away with  
this situation and, we understand,  
gives the highway commission the  
authority to remove these signs at  
the expense of the owner. A fine of  
\$50 or less might be imposed also.

The first real attempt to give real  
service at this intersection is a Boy  
Scout information booth which ap-  
peared on the scene last week. With  
two or more Scouts on duty during  
most of the busier hours, real  
improvement in the situation is  
noticeable. On Sunday nearly 200  
motorists were directed and about  
75 on Monday.

While this service may not be  
up to the standard that might be  
rendered by an experienced officer,  
it is far more satisfactory to the  
tourist than the wasted time other-  
wise suffered and the hazardous  
guess of the average citizen. This  
project is a pleasing innovation for  
the traveler and excellent training  
for the boys, and we hope that they  
may be encouraged to continue the  
work and to undertake other plans  
for public service.

#### Electrical Measurements Named for Electricians

Units of electrical measurement,  
and why they are so named, says  
the Cleveland Plain Dealer, include  
seven terms.

The ampere is named for A. M.  
Ampere, a French electrician; the  
ohm for the German, G. S. Ohm;  
the volt for Alessandro Volta; while  
the others take their names from  
Charles A. de Coulomb, Michael  
Faraday, James P. Joule and James  
Watt.

The ohm is a unit of resistance;  
it represents the resistance offered  
to an unvarying current by a column  
of mercury at the temperature  
of ice, 14.5121 grams in mass,  
of a cross-sectional area of 1,00003  
square millimeters and of the length  
of 1003 centimeters.

The ampere is a unit of current.  
An ampere decomposes .0003235 of  
a gram of water in one second, or  
deposits silver at the rate of .001118  
of a gram a second when passed  
through a solution of nitrate of sil-  
ver in water.

The volt is a unit of electromotive  
force. One volt equals one am-  
pere of current passing through a  
substance having one ohm of re-  
sistance.

The coulomb is the unit of quantity;  
the amount of electricity transferred by a current of one  
ampere in one second.

The farad is a unit of capacity;  
the capacity of a condenser charged  
to a potential of one volt by one  
coulomb.

The joule is a unit of work. It is  
equivalent to the energy expended  
in one second by one ampere cur-  
rent in one ohm resistance.

The watt is the unit of power. It is  
equivalent to work done at the  
rate of one joule per second.

#### ECONOMIC HIGHLIGHTS

Happenings That Affect the Dinner  
Pails, Dividend Checks and Tax  
Bills of Every Individual, National  
and International Problems.  
Inseparable from Local Welfare.

It looks as if the New Deal is  
about to attempt the most dramatic  
and aggressive fight yet made to put  
its theories into law—through con-  
stitutional amendments, if need be.

The President is apparently con-  
vinced that further concentration  
of power in the federal government  
is desirable, and that the existing  
social and economic set-up de-  
mands extraordinary legislation of  
the NRA and AAA order—even  
though most unbiased commenta-  
tors are dramatically opposed to  
this view.

The stage for the struggle was  
established when the Supreme  
Court declared the NRA, the Frazier-  
Lemke Act, and the Railway  
Pension Act, unconstitutional.

Those epochal decisions, in the  
opinion of constitutional authorities,  
make it inevitable that the  
court will likewise hold that the  
Wagner Labor Bill, the Guffey Coal  
Bill, the Social Security Act, and  
other New Deal measures are op-  
posed to the basic law of the land.

Irrespective of that, the Presi-  
dent is using the whole of his in-  
fluence to put such laws through.  
The Wagner Bill has already be-  
come law, and the Social Security  
Act will in all probability follow  
within a short time. And, in one of  
the most startling statements ever  
made by a Chief Executive, the  
President recently requested that  
the Guffey Coal Bill be passed even  
if its constitutionality is doubtful.

He is likewise holding firm to his  
opinion that the Public Utilities  
should provide a "death sentence"  
for holding companies—though the  
House has refused to accept it,  
and able lawyers are confident that  
the Supreme Court would do away  
with it if it did become law.

It is apparent that many of the  
New Dealers who are closest to  
the White House are frank in say-  
ing that the Constitution is out of  
date, that it must be drastically  
overhauled if it is to be adequate  
in coping with modern conditions.

When the Supreme Court meets  
again, it will be called upon to  
pass on two more measures close  
to the heart of Mr. Roosevelt—the  
AAA and the TVA. The chances  
are that it will declare these bu-  
reaus wholly or partially un-  
constitutional. If that happens, the  
New Deal will be forced to go into  
the vital 1936 campaign with a  
platform demanding Constitutional  
revision—drastic, thorough, and  
immediate.

It used to be believed that the  
President could get his way by  
having Congress pass a law where-  
by he could add to the number of  
Justices on the Court. However  
the NRA and Frazier-Lemke deci-  
sions were unanimous—the Presi-  
dent would be forced to appoint  
ten new Justices, all of whom he

could control 100 per cent, in order  
to effect change. He knows that the  
country would not stand for that  
and that it is manifestly impractical.  
Therefore, the only chance is  
the New Deal has to survive is  
through changes in the Constitution.

It takes 36 states to pass a con-  
stitutional amendment, and most  
commentators are of the opinion  
that it would be impossible to must-  
er them, inasmuch as the entire  
South, stronghold of States' Rights,  
would be almost certain to oppose  
granting the federal government  
new powers. Whether or not that is  
true may soon be decided—and in  
the meantime, Mr. Roosevelt's con-  
stitutional policy is providing the  
ammunition that makes for first-  
class political wars. There has not  
been a time in many years in which  
the issues were so clear or so di-  
verse—and when the 1936 spokes-  
men take the stump there will be  
fireworks.

Here are some business briefs  
of interest:

**EMPLOYMENT:** Has gained 60  
per cent in heavy industries since  
March, 1933; shown a lesser ad-  
vance in consumer industries. The  
unemployed are now estimated at  
about 9,000,000.

**INDUSTRIAL ACTIVITY:** Has  
foiled the forecasters, by holding  
up better this year than was antici-  
pated. Was at 85 per cent of the  
1923-25 average in May, and the  
first half of 1936 was five per cent  
better than the same period last

**AUTOMOBILES:** First half pro-  
duction was 35 per cent over same  
period in 1934, represented the  
highest volume since 1929.

**STEEL:** Steel makers are hope-  
ful, and the usual summer decline  
has been less severe than in the  
past. Structural steel business is  
good, due to government orders.

**MINING:** Copper prices recently

took a sharp drop, following the  
elimination of NRA price-fixing.  
Silver values also declined lately,  
due largely to the Treasury's re-  
fusal to buy additional silver stocks  
in large quantities.

**AGRICULTURE:** It is estimated  
that the farmers' 1935 income will  
be about the same as in 1934, which  
registered a billion-dollar jump  
over 1933. Crops will be larger this  
year than last, but prices will  
probably be lower.

**LABOR:** Latest strike trouble has  
occurred in New England textile  
mills, where the union recently  
called a strike on one large oper-  
ator, is threatening others. It is  
said to be inevitable that there will  
soon be a strike of cloak and suit  
workers in the east. Potential la-  
bor troubles have most big indus-  
tries nervous.

**IN OUR  
MAGAZINE SECTION**  
THIS WEEK  
HOPE FOR NATIONS UNEMPLOYED  
ED YOUTH—William C. Uney  
Serial—HOSTILE VALLEY  
WOMEN'S PAGE  
CARTOONS NEWS PICTURES

#### NEWS OF THE WEEK

—Continued from Page One—

##### HOPE SLIM FOR ITALO-ETHIOPIAN PEACE

Rome, Italy—Hope that the  
Italo-Ethiopian situation may be  
cleared up without resorting to war  
finds no substantiating fact. Mus-  
solini cannot possibly withdraw  
now and keep his face. With about  
200,000 troops either already in  
Africa or preparing to go, to with-  
draw them empty-handed would  
mean the end of Il Duce's regime.  
Italian soldier's continue to build  
roads and establish base camps in  
Africa as expeditiously as pos-  
sible.

##### HUGE NEW CAMERA TO MAKE SURVEY

Washington, D. C.—Several  
months ago the Department of Agri-  
culture's Soil Conservation Service  
awarded Fairchild Aerial Surveys  
a \$185,000 contract to make a  
detailed map of Central New Mexico.  
Sometime this week the survey  
—most ambitious ever undertaken  
in America—is scheduled to begin.  
At 23,000 feet ten electrically con-  
trolled shutters on a new \$26,000  
camera will click every few minutes.  
This huge camera, most ex-  
pensive ever built, will cover 760  
square miles with one shutter click  
at 30,000 feet. But fitting together  
pictures taken in a week's flying  
might take a year. Aerial survey  
work of this kind maps large im-  
passable areas, virtually impossible  
to survey from the ground, com-  
pletely super-accurately.

##### BATTLE OF THE BOYNE—1935

Belfast, Ireland—At the Battle of  
the Boyne—1690—King William III,  
former Prince of Orange, defeated  
the Catholics under King James II,  
kept Britain safe for Protestantism.  
Every year Irish men fight the bat-  
tle over again. Orangemen yell:  
"To hell with the Pope!" Catholics:  
"To hell with the King!" This year  
with half a million Orangemen cele-  
brating in Belfast and damning  
Eamon de Valera, trouble broke  
out as usual. Rioting flared for  
two nights leaving 4 dead, 66  
wounded.

##### REPUBLICAN PARTY HAS HEART

Cleveland, Ohio—Some 1,100 Re-  
publicans rallied round for a con-  
ference of the "Grand Old Party" in  
Cleveland. Delegates from six cen-  
tral states joyfully lambasted the  
Democrats for piling up huge debts  
on future generations. But the GOP  
must "show the people of America  
that the Republican Party has  
heart." So they passed a res-  
olution for immediate cash pay-  
ment of \$2,100,000,000 veteran's ad-  
justed compensation certificates.

Chester Cook, Ohio veteran, an-  
nounced "Millions of veterans are  
ready to go to the Republican Par-  
ty if the Republicans have the guts  
to say we're for you."

##### "FAMOUS VICTORY" COSTLY

Washington, D. C.—The utilities  
interests are putting up a strong  
defence against the Senate's inves-  
tigating committee. Phillip H. Gas-  
den, chairman of the Committee of  
Public Utilities Executives, admitted  
that they spent \$301,865 in de-  
feating the "death sentence." But  
he estimated total cost of the utili-  
ties "famous victory" as over a  
million, due to government orders.

**CHINA SENTENCES EDITOR**

Nanking, China—Two years ago  
Tu Chung-Yuan, wealthy chinaware  
manufacturer, took over a sup-  
pressed Shanghai opposition maga-  
zine and renamed it "New Life  
Weekly." Last May, his magazine  
ran a slightly "Gossip About Em-  
perors" in which Japan's Emperor  
Hirohito was written up tongue in  
cheek. When Japanese war-lords  
handed Nanking one of their fre-  
quent lists of demands they were  
found to include prompt unish-  
ment of Tu. Before three judges  
of the Kiangsu High Court Tu  
pleaded in vain that he was out of  
town when the article was printed.  
They imposed a maximum sentence  
of 14 months in jail. Tu cried out  
in despair. Two hundred Chinese  
students cried out in rage, surged  
toward a Japanese attack. With  
several countrymen he promptly  
departed.

##### MAD MONARCH'S TORTURE DEN REVEALED

Moscow, U. S. S. R.—Ivan the  
Terrible, insane 16th century Czar  
of Russia amused himself by watch-  
ing his subjects die exquisitely hor-  
rible deaths in his subterranean  
torture chamber. Legend told that

Ivan, finding the blood-soaked  
chamber too damp, had had  
imported for the floor. Soviet  
workers, digging a subway under  
the cow, ran into a patch of white  
foreign to the district. Further  
investigation revealed that Ivan  
had stumbled on Ivan's  
skeletons and some 16th century  
pictures helped historians verify  
the grisly legend.

BETHEL 9—MECHANIC FALLS 0 BETHEL 12—BRYANT POND 0

Bethel got revenge over Mechanic Falls by a 9-0 victory here last in rare form, allowing the strong team to score 12 runs. Quimby was in rare form, allowing only six scattered hits, one in the second and one in the ninth inning, thereby taking the lead. The life guard had figured the whole thing out mathematically when the girls had come down to Long Beach on location ten days before.

But just now he stood glaring down as she sat in the sand. "So you care more about your darned publicity than you do about me!"

Her blue eyes flashed angrily. "I care about holding down my job! If you'd ever been out of work as long as I have, you'd realize how much my pay envelope means to me!"

"I don't care how much you think of your pay envelope. I don't like that guy Turner even if he is a director. And I don't want you to go out with him."

Judy shrugged shapely brown shoulders. "I'll go out with him every night in the week if it's necessary to keep my job!"

Andy glared at her. "And I suppose you'd let him make love to you, just to hold your job?"

Judy flushed, then laughed. "Don't be melodramatic, darling! Life isn't like that!"

"Don't be too sure. I've heard of directors who expected more than just good acting from the pretty extra girls."

Judith sobered for a moment. "I know. There was a girl who killed herself!"

She shuddered, but the next instant forced a laugh. "We're being awfully silly. Just because Mr. Turner likes to take me out is no sign he has designs on me!"

Andy saw very little of Judy the next few days although never for a moment did he stop thinking of her. On three different occasions he had seen her riding in the assistant director's long yellow roadster.

And then early one morning she came down to the beach, and his strong heart began doing strange things in his deep chest.

She carried herself with a determined air this morning that was new to her. Andy was puzzled as she strode out to the end of the windy pier. Surely she wasn't going to dive? The undertow beneath the pier was terrific. Only an expert swimmer could withstand that pulling toward the piles.

Good heavens! She was standing outside the railing at the pier's end, her shoulders drooping, her whole attitude that of hopeless depression! Andy looked about wildly for movie cameras, but none were in sight. He was the only person on the beach. And just as he looked back at her, Judy slipped off into the water.

The life guard raced to the pier and covering its length in Marathons strides, dove into the water. He saw Judith clinging to one of the barnacle-covered piles under the pier. If only she could keep her grip! But the barnacles were sharp and would cut her hands. With long swift strokes he swam toward her.

"Hold on!" he shouted, but his voice sounded tiny.

She must have heard for she turned her head to look at him. A strange expression came into her eyes. Then deliberately she released her hold and dropped into the rushing green-black water!

Andy dived after her but soon discovered that she did not want to be rescued. She struggled desperately to free herself.

"Let me go!" she gasped when they reached the surface of the water. She kicked violently with both legs and pounded him with her fists.

Andy was bitterly determined. "Stop that! Do you want me to knock you out?"

One of his arms encircled her tightly, and with his other arm and legs he kept them both afloat.

She tried to push away but Andy raised his fist menacingly.

"All right," she gasped. "I'll go with you."

Her body relaxed, and with one hand on his shoulder she allowed him to tow her.

## Extra Pay

By RUTH ASTON  
© McClure Newspaper Syndicate  
WNU Service.

JUDY was only a movie extra, but Andy had fallen for her harder than if she were Mona Manning herself. Judy was twice as pretty as the famous star, only half as sophisticated, and ten times as sweet. The life guard had figured the whole thing out mathematically when the girls had come down to Long Beach on location ten days before.

But just now he stood glaring down as she sat in the sand.

"So you care more about your darned publicity than you do about me!"

Her blue eyes flashed angrily. "I care about holding down my job! If you'd ever been out of work as long as I have, you'd realize how much my pay envelope means to me!"

"I don't care how much you think of your pay envelope. I don't like that guy Turner even if he is a director. And I don't want you to go out with him."

Judy shrugged shapely brown shoulders. "I'll go out with him every night in the week if it's necessary to keep my job!"

Andy glared at her. "And I suppose you'd let him make love to you, just to hold your job?"

Judy flushed, then laughed. "Don't be melodramatic, darling! Life isn't like that!"

"Don't be too sure. I've heard of directors who expected more than just good acting from the pretty extra girls."

Judith sobered for a moment. "I know. There was a girl who killed herself!"

She shuddered, but the next instant forced a laugh. "We're being awfully silly. Just because Mr. Turner likes to take me out is no sign he has designs on me!"

Andy saw very little of Judy the next few days although never for a moment did he stop thinking of her. On three different occasions he had seen her riding in the assistant director's long yellow roadster.

And then early one morning she came down to the beach, and his strong heart began doing strange things in his deep chest.

She carried herself with a determined air this morning that was new to her. Andy was puzzled as she strode out to the end of the windy pier. Surely she wasn't going to dive? The undertow beneath the pier was terrific. Only an expert swimmer could withstand that pulling toward the piles.

Good heavens! She was standing outside the railing at the pier's end, her shoulders drooping, her whole attitude that of hopeless depression! Andy looked about wildly for movie cameras, but none were in sight. He was the only person on the beach. And just as he looked back at her, Judy slipped off into the water.

The life guard raced to the pier and covering its length in Marathons strides, dove into the water. He saw Judith clinging to one of the barnacle-covered piles under the pier. If only she could keep her grip! But the barnacles were sharp and would cut her hands. With long swift strokes he swam toward her.

"Hold on!" he shouted, but his voice sounded tiny.

She must have heard for she turned her head to look at him. A strange expression came into her eyes. Then deliberately she released her hold and dropped into the rushing green-black water!

Andy dived after her but soon discovered that she did not want to be rescued. She struggled desperately to free herself.

"Let me go!" she gasped when they reached the surface of the water. She kicked violently with both legs and pounded him with her fists.

Andy was bitterly determined. "Stop that! Do you want me to knock you out?"

One of his arms encircled her tightly, and with his other arm and legs he kept them both afloat.

She tried to push away but Andy raised his fist menacingly.

"All right," she gasped. "I'll go with you."

Her body relaxed, and with one hand on his shoulder she allowed him to tow her.

Laying her down gently in the soft dry sand, he asked, "Are you all right?"

Without answering she gave him a smile of unbelievable sweetness. Andy took one of the cold white hands in his. "Darling, I don't know what's happened, but I love you, and I want to marry you. I want to take care of you always."

"You're sweet, Andy."

"Will you marry me?"

"Yes. I didn't want you to rescue me. But when you did, I found I loved you. Do all the ladies you save fall in love with you, Andy?"

The man ignored her question. "Darling, why did you try to drown yourself? Promise me you'll never do a thing like that again."

Judy smiled, salt water still clinging to her long eyelashes. "I wasn't trying to drown myself, Andy. I was just practicing for my big scene tomorrow, with extra pay. I'm doubling for Mona Manning in a suicide act! I was supposed to swim away under the water, but you spoiled it all by rescuing me."

## Sparta of Century Ago Is Out of the Picture

About a century ago the site of ancient Sparta, capital of Laconia, was a scene of busy activity. The Greek war of independence was over, and patriotic souls were stimulated by the emotions of victory to dream of a resurrected city in the Peloponnesus. Baron Jochimus was enlisted to prepare designs, and a glorious metropolis was anticipated. But the enterprise was destined to meet with but little success. Today, observes a writer in the Washington Star, Sparta is only a small town, the capital of nothing but a prefecture and the post office address of no more than seven or eight thousand people.

At the Rendezvous the county, through the co-operation of the Aroostook Council and the Aroostook Valley Fish and Game Club, will have an information booth at which the thousands of people visiting the big sports event will be invited to include Aroostook in their itineraries. To show that Aroostook guides are as good, if not better, than any others that are likely to appear at Maranacook, they will run an elimination tournament at Portage Lake just prior to the Rendezvous and will send the winners to the latter place to bring home whatever bacon is in sight.

In addition, they will send down two attractive young ladies to compete with any others of their sex

that are likely to compete to show that Aroostook girls are without peers in outdoor athletic competition.

Instead of sectional jealousy, the

Aroostook people will find that

other sections of the State will be

cheering them on in their efforts

to sell their county to vacationists.

Aroostook is a part of the State

that shouldn't be missed by any-

one coming to Maine.

## The MAINE MEETING PLACE

By EARLE DOUCETTE

Aroostook County will be represented at the New England Rendezvous at Lake Maranacook, near Augusta, July 26-August 4 in a way that will serve notice on the other sections of the State that the people of the Nation's Garden Spot are, from now on, definitely in the recreational picture.

For some time the ambitions and wide-awake citizens of the Potato Belt have had the impression that their far-flung county was good for something besides raising the vegetable that has made it famous. Looking around, they have seen that their homeland was favored by sparkling lakes, picturesque rolling mountains and one of the last stands of unspoiled wilderness in the State. Furthermore, the entire region so favored by nature with a summer climate that comes close to being ideal.

Thinking that summer visitors would find the county to their liking and being appreciative of the value of the recreational industry, they have been endeavoring for some few years to make the region popular.

So far, and for no other reason but that any new idea takes a long time to gather speed, their efforts have only been partially successful. Now, however, it appears that they are ready to do business in a big way.

At the Rendezvous the county, through the co-operation of the Aroostook Council and the Aroostook Valley Fish and Game Club, will have an information booth at which the thousands of people visiting the big sports event will be invited to include Aroostook in their itineraries. To show that Aroostook guides are as good, if not better, than any others that are likely to appear at Maranacook, they will run an elimination tournament at Portage Lake just prior to the Rendezvous and will send the winners to the latter place to bring home whatever bacon is in sight.

The history of the city may be summarized in a roster of dates; 1400 B. C., town founded; 1204, abduction of Helen of Troy by Paris; 1194, beginning of the Trojan war; 1170, return to Menelaus and Helen; 1104, kingdom seized by Heraclidae; 884-850, rule of Lycurgus; 743-724, war with the Messenians; 655-674, revolt of the Messenians; 547, war with the Argives; 505, war with Athens; 491, war with Persia; 480, Leonidas, with 300 Spartans, at the battle of Thermopylae; 408, earthquake destroys 30,000 persons; 454, war with Athens; 404, end of the Peloponnesian war, Sparta at the height of its power; 395, beginning of the Corinthian war; 376, Sparta loses dominion of the seas; 302, Spartans defeated by the Thebans at the battle of Mantinea; 344, Sparta overcome by Philip of Macedon; 147, Sparta, protected by Rome, again a leading state; 306, A. D., city taken by Alaric; 1400, taken by Mahomet II; 1463, burned by Sigmund Malatesta.

## A Pair of "Babes" in the Southland

Before the recent meeting at St. Petersburg, Fla., of the Boston and the House of David baseball nine, Babe Ruth patted the back of Babe Stelzner, House of David player, just for luck. It is known that Babe "out-Babed" the Bambino in the big show by hitting one run with one on, while Mr. Ruth garnered a lone single.

## Battleship Salvaged Upside Down

When the German battleship Bayern, scuttled by her crew in the waters of Scapa Flow after the armistice, was salvaged, she came to the surface upside down. She is here shown as she arrived at Rotyth, Scotland, to be broken up for scrap metal.

## EAST STONEHAM

Richard Files, who has employment at Springfield, Mass., was the guest of his parents, Mr. and Mrs. Clarence Files, over the week end.

Charles Chaplin is working for Mrs. Farnham, making repairs on her new home.

Mr. and Mrs. Carlton Barker and family, also Ruth Anderson and George Mudge enjoyed a trip to Noyes Mountain in Greenwood on Sunday.

V. H. Littlefield has a new Essex car.

Mr. and Mrs. Thornton Currill did not move to Fryeburg as intended but moved into the Walter Butters' rent with Mr. and Mrs. Glendon Allen.

Mrs. Gertrude Adams and her father, Walter Butters, of Millinocket are at their summer home here.

Mr. and Mrs. Wilbur Rogers of Norway were the guests of her mother, Mrs. Georgia McAllister, Sunday.

Rev. and Mrs. George W. Owen of Hyde Park, Mass., are enjoying a vacation at Camp Margaret.

Gwendolyn Leavitt of Naples is visiting her aunt, Mrs. Maude McAllister.

Mr. and Mrs. J. H. Farrington attended the motorcycle races at Keene N. H., Saturday and Sunday.

The steam shovel was taken to Norway, Monday, and work on the state aid road has been dropped for a while. This will give the farmers a chance to do their haying.

## WEST STONEHAM

Mrs. Albert Adams has been helping Mrs. Charles Emery at No. Fryeburg a few days the past week.

Martha Adams has finished work for Sarah Grover and Miss Bartlett from Bethel is helping her.

Jeannette Adams has gone to Norway to work for her aunt, Mrs. Lizzie Adams.

Those who took dinner at John Adams' Sunday were Solon McAllister, Mr. and Mrs. Bertrand Emery and sons Byron and Dennis, Earle Emery, Thornton Currill, Herbert Kritridge and Charles Carley.

Mrs. Albert Adams sold her cow to Walter Laroque at North Lovell. Albert Adams and Charlie Carley worked on the road Friday and Saturday.

## Witness Trees

When Michigan land surveys were made from 80 to 100 years ago, surveyors marked the exact location of section corners with square wood stakes. This location was "witnessed" by trees which were blazed and marked with their distance and bearing with reference to the corner recorded in the surveyor's notes. With the passage of years, the square stakes have disappeared, but in spite of lumbering and forest fires, many witness trees still can be found. In many cases, burned-out stump holes of the witness trees are all that remain. In remnants of virgin timber stands or in swamps where fire did not penetrate, the markings of witness trees have been perfectly preserved by the new growth of the trees which has closed over them.

## Oldest English Colony

The British dominion of Newfoundland is the oldest English colony. It has been in the possession of England since its discovery by John Cabot in 1497.

## NORTH NEWRY

Most of the farmers have started haying here.

Vacation Bible School opened here Monday for two weeks. Miss Grace Jameson, the teacher, is staying at F. W. Wight's.

Mr. and Mrs. Hartley Hanscom entertained their daughter, Ella Cole, and oldest son, Ray, Sunday.

James Johnston and family called at L. E. Wight's Sunday morning.

Mr. and Mrs. G. K. Wight of Framingham, Mass., were weekend guests at F. W. Wight's.

Miss Helen Richardson of Auburn is a guest of Mr. and Mrs. J. B. Vail.

Roy Eaton has gone to Portland where he has employment for several weeks.

Rev. Robert Haldane and family of Ashland, N. H., were calling on friends in town, Saturday evening.

Don Fraser and Herbert Morton, Jr., went to Magalloway Tuesday morning, where they have work.

Dana Grover and family of Paris are spending a few days at Wight's Brook Camps.

Mrs. Richard Blake and children are spending a week in Rumford with her sister, Mrs. Charlotte Bushley and family.

Willard Wight, his mother, Mrs. F. W. Wight and Miss Althea Sweeney attended the picture, "The Little Colonel," Friday night at Bethel.

Mrs. L. E. Wight has been appointed local chairman for Newry for the Three Quarter Century Roster Committee.

George Wight and Miss Mary Sanborn were callers Sunday evening at his home in Newry.

## Rhinoceroses Inhabited

North America Long Ago

The rhinoceroses of North America are well represented among the exhibits at Field Museum of Natural History.

Allison, the rhinoceros ordinarily of rhinoceros only as associated with Africa, India and a few other localities on the other side of the world, there was a time, a good many million years ago, when various species of these great pachyderms were at home in North America and, in fact, were abundant over a great part of this continent, it is pointed out by Elmer S. Riggs, associate curator of paleontology at the museum.

The state road work has been discontinued until after haying.

L. A. York was a caller at Joe Spinney's, Wednesday.

Mrs. Bertha Bean has gone on a vacation.

Mr. and Mrs. Roland Fleet were on Bear River, Wednesday.

Mr. and Mrs. William Powers were in Bethel, Monday.

It is of the fossil specimens of these prehistoric animals that the Graham Hall collection consists. Included are a practically complete mounted skeleton, and several skulls and leg bones of American rhinoceroses of various kinds. Some of the specimens were excavated from ancient geological formations in the "bad lands" of South Dakota; others are from old river channels and from the drifted sands of Nebraska and Kansas. The animals apparently became extinct due to the frigidity and aridity which crept down upon the great plains region preceding the ice age.

not sure, nobody mentions it. Sometimes caused by teeth, more often by disordered stomach. Common forms of indigestion, dry and pasty mouth, furred tongue, acidity or sour stomach, gas in stomach or bowels, dizziness, headache, constipation, disagreeable conditions like these yield quickly to the old family remedy, "L. Discussion on Quoddy Project, L. E. Wight, E. L. Holt and others.

Grange closed with 21 members present. Supper was served to the winning side of contest.

## SUNDAY RIVER

Deferred

Mrs. Sarah Kendall and daughters, Edia and Ruth, were in town Saturday from Massachusetts.

The Edward Fishers are at their summer home for a few days.

Mr. Fisher, while on a fishing trip in the neighborhood found an old bald-headed eagle which he brought to the home of J. W. Reynolds where it was viewed by several of the neighbors. It was released and let go back to its friends which he seemed in no hurry to do as he flew near the ground then stopped and rested awhile before it disappeared.

Frank Gorman was in town on July 4th.

Mrs. Edith Bailey was in town Tuesday.

Miss Hope Bailey spent a few days last week with her aunt, Mrs. Bessie Reynolds.

Bears are moving back into town for one and her cub killed and ate most of a three day old calf owned by R. M. Fleet, last Tuesday. The animals were seen but are still at large.

The state road work has been discontinued until after haying.

L. A. York was a caller at Joe Spinney's, Wednesday.

Mrs. Bertha Bean has gone on a vacation.

Mr. and Mrs. Roland Fleet were on Bear River, Wednesday.

Mr. and Mrs. William Powers were in Bethel, Monday.

## WANTED

## DEPENDABLE REPRESENTATIVES FOR ALL OR PART-TIME IN THIS COMMUNITY

I am the sales-manager of a successful business of national scope. The nature of this business is such that I can offer men and women of standing in their community a profitable and congenial way of adding to their income on a part-time basis, or to establish a lucrative business of their own if in a position to devote their entire time to the work I have in mind.

These duties bring our representatives in touch with the best business and professional elements of the community. The work is dignified, and I give every field representative my personal assistance; in fact, I consider our field agents as one of the most important divisions of this large business.

Write to me briefly about yourself and your experience. Your letter will come directly to my desk and will receive my personal attention.

## SALES-MANAGER

SUITE 2700—1270 SIXTH AVENUE—NEW YORK CITY

## UPTON

Mrs. Earl Wentzell of Portland is a guest at the Abbott Inn for a few days.

The Church School closed Friday with exercises in the evening. Several parents and friends attended the exercises and the afternoon of hand work accompanied by the children.

Mrs. Flora Cummings of Oxford is spending a week with Mrs. and Mr. Judykins.

Sodium chloride, one pound one gallon of water, is effective in killing weeds in tennis court walks. Two or three spraying six week intervals, may be necessary.

Hand on the Shoulder

James Whitcomb Riley

Mr. and Mrs. Eugene Andrews of Norway were guests at Evander Whitman's, Sunday.

Mr. and Mrs. M. A. Jordan and daughter Eleanor and Carl Barnard from Mechanic Falls were visitors at M. F. Tyler's, Sunday.

Guests at Clyde Whitman's last week were Mr. and Mrs. John Trefethen and Mr. and Mrs. Emerson Trefethen from Portsmouth, N. H.

Mrs. Cleveland Waterhouse has taken her infant son to the Rumford Community Hospital where he again submitted to surgery on his foot.

Mrs. George Haines from East Bethel visited her daughter, Mrs. Bertand Abbott, Tuesday.

Mrs. Clyde L. Whitman and Mrs. Evander B. Whitman were in Portsmouth, N. H., Friday.

## Middle Intervale, Bethel

Due to the illness of Mrs. Susie Capen the next Farm Bureau meeting will be held at Mrs. L. C. Stevens'. The subject of the meeting will be, "Cleaning Garments at Home."

Smith, Osgood and Brown have been awarded the contract of haying the Ada Bean farm and will begin soon.

Miss Grace Carter from Bethel has opened the old A. M. Carter mansion for the summer.

Stephen and Mabel Abbott spent Friday in Berlin.

A swimming party from this section and east Bethel spent Sunday afternoon in the invigorating waters of Lake Songo.

Road Commissioner Brown and his crew are well underway with the construction of the third class road between the L. U. Bartlett estate and the Sam Badger homestead.

Mr. and Mrs. Fred Tibbets of Portland spent the week end with Miss Grace Carter.

## EAST BETHEL

Mr. and Mrs. Robert Bickford of Bowdoinham were overnight guests of their daughter and family, Mr. and Mrs. Robert Hastings, July 3d.

Mr. and Mrs. Horace Bickford and two children of Lisbon called at Robert Hastings', July Fourth.

Mrs. Ione Holt and Mr. and Mrs. Leroy Holt of Neponset, Mass., are guests of Mr. and Mrs. W. B. Bartlett.

Word has been received of the marriage of Ellen Burns, formerly of this place and Granville L. Burns of Natick, Mass., in Natick. They will reside at 77 West Central Street, Natick.

Mr. and Mrs. Leroy Holt were in Boothbay a few days last week.

The Farm Bureau met at the hall Wednesday, taking up "Cleaning Garments at Home" under the direction of Mrs. Noyes. Three garments were cleaned. A number of ladies thought they would try the method at home.

Mr. and Mrs. W. S. Hastings and children were in Greenwood and then went to Papoose Pond for a picnic with Mr. and Mrs. Lauri Tammisen and friends, Sunday.

Mr. and Mrs. W. B. Bartlett, Mrs. Ione Holt and Mr. and Mrs. Leroy Holt were in Norway, Sunday, visiting Mr. Bartlett's sisters, Mrs. Pierce and Miss Rilla Bartlett.

## SOUTH BETHEL

Vinton Tibbets returned home from the hospital Friday evening and is gaining in health.

Mr. and Mrs. Arthur Smith of Vermont visited his brother, Elmer, Friday evening and returned home Sunday with his daughter, Margaret, also Elmer Smith's daughter, Olive.

Muriel Vashaw is spending her vacation in Berlin with her father.

Mr. and Mrs. Billin Collins and family, Mrs. Mabel Collins, Mrs. Kay Eldredge and family were visitors at Wilsons Mills, Monday evening.

Billin Collins and family took Mr. and Mrs. Smith to Berlin Saturday and the Smith folks brought back their car.

Ambrose Givens called on Merwin Collins and family Thursday and had dinner. Mr. Givens is a resident of Rumford.

Billin Collins and family, Merwin Collins and family, their father, and William Mason were Sunday visitors at the home of their brother in Hale.

## BRYANT POND

A church meeting was held at the Baptist Co-Operative Church on Monday evening. Mrs. Edna Newton was elected clerk. Rev. James MacKillop was hired for an indefinite period by unanimous vote.

Mr. and Mrs. Fred Cole took a ride Sunday down to Crescent Beach.

Mr. and Mrs. Robert Farrington visited Dry Mills Fish Hatchery on Sunday.

The Ladies Aid met Monday afternoon. They decided to serve a supper Friday, July 26.

Mr. and Mrs. Donald DeShon have moved into the Mountford house.

Work is progressing rapidly on Kirke Stowell's house on Rumford Street.

The Garden Club met with Mrs. Agnes Brooks at the Brooks' camp last Friday with a large attendance. A good time was enjoyed. They will hold a party at Mrs. Hayes' next week, Wednesday, the proceeds to go toward buying prizes for the Flower Show. The next regular meeting will be at Mrs. Arthur Stowell's camp, on August 13.

The Star Birthday Club served a banquet for the Masons last Tuesday night, it being Past Master's Night.

## PERKINS VALLEY—WOODSTOCK

Alfred Thurlow of Pigeon Hill was a recent caller at his brother's, Bernal Thurlow's.

Charles Silver has built a piazza on his house.

Nelson Perham and family and Rose Perkins, were supper guests of his son, Melford Perham, and wife at West Paris, Monday night.

Harold Hutchins and wife of Portland were callers at Nelson Perham's, Saturday, July 6.

Helen Poland is laid up with neuritis. Flora Swinton assisted her with her work Thursday.

Frank Perkins returned to his home in Andover, July 8.

Mr. and Mrs. Harry Cornish, son Harry and daughter Velma, of Bath; Mr. and Mrs. Melford Perham of West Paris; were last Sunday callers at Nelson Perham's.

Harry, Jr., stayed for a few days with Norman Perham.

A stork shower was tendered to Mrs. Bernal Thurlow last Thursday afternoon by her neighbors and friends. A nice variety of dainty gifts were received. Refreshments of cake, punch and candy were served.

Mr. and Mrs. Bernal Thurlow were in Lewiston, shopping, Friday.

Arthur Thurlow has been on the sick list a few days.

David Shaw of Portland has been hired to teach the church school here this coming year.

Sidney Verrill and family of South Paris were callers at Nelson Perham's Sunday. Raymond and Richard remained for a few days with their cousin, Normas Perham.

Mr. and Mrs. Melford Perham, Mrs. Nelson Perham and son Norman were in Andover, Saturday. Mrs. Perkins called to see Dr. Kimball at Rumford Point, as she is under his care.

## WEST PARIS

A very happy day was spent by the Universalist Sunday School at Littlefield's beach, Locke Mills, on Wednesday of last week. More than 80 were present. Many enjoyed the bathing and rowing; others, races and pitching horse shoes. At noon the company were treated to roasted weenies and rolls, with their picnic dinner, by Mrs. Jennie Brown Dunham, who also served the company with watermelon. As Mrs. Dunham's birthday came on that date, Mrs. Dunham was given a shower of postcards from the school, a birthday cake from the superintendent of the primary grade, Mrs. Simeon Farr, and a blood stone pendant from the entire school. The school sang Happy Birthday to Mrs. Dunham; also to Robert and Herbert Bean and Robert Young, Jr., whose birthdays occurred on the same date, and they were presented a birthday cake which they served their friends.

Miss Ella Curtis has returned home from a visit with her cousin, Mrs. Will Bowker, at Portland.

Mrs. Arthur Wellcome and children, Barden and Dorothy, of Waldo, Mass., are guests of her parents, Mr. and Mrs. C. F. Barden.

Mrs. Cornelia Wheeler spent the week end at her home in Bethel.

Services Sunday closed the Universalist Church for the summer vacation and Rev. Eleanor B. Forbes, pastor, went to Ferry Beach Park, Saco, Thursday, for the summer school of religious education. The Sunday School is also closed. The following have not been absent during the year:

Junior Perham, Junior Farr, Alfred Perham, Marion Farr, Grace Chapman, Roscoe Perham, Thelma Smith. Those present every Sunday but one: Audrey Chase, Ruth Farr, Everett Chase, Maxine Farr.

The Star Birthday Club served a banquet for the Masons last Tuesday night, it being Past Master's Night.

Mr. and Mrs. Frank King of Locke Mills spent one evening last week with Mr. and Mrs. George Abbott.

Mr. and Mrs. Wilbur Yates of Greenwood visited friends here one day last week.

Richard, son of Mr. and Mrs. Herman Cole underwent an operation for tonsils and adenoids at Dr. Kay's office last Friday.

Beatrice Cushman is with her sister, Mrs. Lubert McGuire at Peru.

Mr. and Mrs. Malcolm Downing of Mechanic Falls were Sunday visitors of her parents, Mr. and Mrs. Walter Russ.

Mr. and Mrs. Clinton Bick and Mrs. Edgar Davis were at Norway Monday evening.

Doris Coffin visited last week with relatives at Rumford Corner.

"Furfural" used to sell from \$25 to \$30 a pound. Now a method has been found to retrieve it from corn cobs, oat hulls, and cotton hulls. The price

Ancient Dura or Syria  
Ruins Date to 280 B. C.  
The ancient ruins of Dura in what is now Syria was the outlying post of Graeco-Roman civilization and existed from 280 B. C. to about 250 A. D. It was first a Macedonian colony of Alexander's general, Nicander, and received its Greek culture on a basis of Semitic population attracted from the desert to the security of its walls. It was the connecting link in the caravan trade that wound up the Euphrates valley from Parthia and the east to the Mediterranean. After 150 years as a Macedonian city, Dura was taken over by the Parthians, the powerful rivals of the Romans, was later seized by the Romans and incorporated in the Roman empire of Marcus Aurelius. It finally fell under the advances of the New Persian of the Sassanians, and then was abandoned to the sands of the desert. It had already endured nearly 900 years, and when Julian the Apostle passed its ruins, beneath them lay records of five civilizations.

Dura was a melting pot of religions. Babylonian, Syrian, Persian, Arabian, Greek, Roman and Christian religious edifices were built in the city and each season of excavation brings to light many valuable additions to the knowledge of these ancient religions and civilizations.—New York Herald Tribune.

Balinese Refined, Look  
at Life Optimistically

For generations the Balinese have been a race of masters, employing the inhabitants of neighboring islands as their slaves. This helps to account for their refinement, the perfect formation of their hands and feet and the fine small bones of their heads and faces. Even their religion is refined, asserts a writer in the Montreal Herald. Their temples have nothing of the cringing timorousness of India and their conception of punishment in a future life is to be robbed of the power of appreciating beauty; to be degraded not in body but in mind.

Laughter is a great beautifier, and the women of Bali spend much time laughing. Their religion, unlike the Hinduism of the mainland of India from which their race came, has nothing of terror or gloom. Even the most fearsome of their gods has a twinkle in his eye, and seems to say: "My image is so ugly that you really must take it with a grain of salt." Death itself is an occasion for supreme merrymaking. Corpses are piled on a wheeled tower of bamboo, often more than 30 feet high, decorated with gilt scroll, paper streamers and banners. From this tower the bodies in their tall shaped coffins slide down a sort of switchback to the fire, while everybody dances and sings.

## CHURCH ACTIVITIES

## CONGREGATIONAL CHURCH

Rev. Herbert T. Wallace, Minister  
Sunday, July 21st

11:00 a. m. Morning Worship.  
Sermon subject: "The Foolishness of the Gospel."

The Daily Vacation School closing will be held in the Congregational Church on Friday evening of this week, tomorrow evening, at 7 o'clock. Both departments of the School will have a part in the service and there will be an exhibit in the Chapel of the Handwork done by the classes during the School.

Parents and friends and all interested are invited to be present. An offering will be taken to defray the expenses of the School.

Mr. and Mrs. S. S. Bennett from Gorham were in town calling on old friends recently.

Mrs. Etta Cole from Norway is visiting her nephew, Herman Bennett, and wife.

Mr. and Mrs. Gerry Nutting from Saco were guests of Mr. and Mrs. R. M. Kneeland and family Friday.

Miss Laura Hutchinson from Henniker was home over the week end.

Mr. and Mrs. Felix Googan and son Robert from Rumford were in town one day last week.

Pleasant Valley 4-H Club met with Lillian Lovejoy last Tuesday. The project was a banana pudding made by Catherine Bean and Lillian Lovejoy and served to eight members that were present.

Warren Bean was home from Auburn over the week end.

Fawn Curtis, who cut his leg a few days ago, is able to be about with the aid of crutches.

Miss Ruby Bennett is attending Normal School at Farmington for the summer.

"Life" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 21.

The Golden Text is: "How excellent is thy lovingkindness, O God; therefore the children of men put their trust under the shadow of thy wings—and thou shalt make them drink of the river of thy pleasures. For with thee is the fountain of life" (Psalms 36:7-9).

Among the citations from the Bible is the following: "For as the Father hath life in himself; so hath he given to the Son to have life in himself" (John 5:20).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Life is, always has been, and ever will be independent of matter; for Life is God, and man is the idea of God, not formed materially but spiritually, and not subject to decay and dust" (P. 200:9-13).

Wednesday testimonial meeting at 7:30 p. m.

# HOPE FOR NATION'S UNEMPLOYED YOUTH

By WILLIAM C. UTLEY

WITH a snort of disgust the young man tossed his hat on the table. And as he sank into the chair, his newspaper, folded with the help wanted ads to the outside, its gray columns smudged with the sweat of much handling, fell to the floor; he didn't bother to pick it up.

He bent in defeat, his hands hung limp from the arms of the chair. His eyes fixed in a red stare on the thin carpet, his nostrils widened in a sneer and his lower lip pouted. He looked as if he would do something desperate—if there were anything desperate to do.

His throat was dry as he spoke.

"I give up!

"I've been in every darn place in this town where they might need somebody to do anything. I'm a graduate engineer with one of the best records in my class—and I can't get a job washing dishes. I've been trying for three years.

"The jobs there are go to married men who have families that need food and a home. That's all right, I suppose they should. But Lord, I want to get married myself some day, and here I am twenty-five without a chance in sight of getting myself any kind of a start. I've got a right to my life and happiness. But I've got to work!

"And what do they say to me? You've no experience. We can get good men with years of experience or what we have to pay you."

"Good Lord, how am I going to get experience if I can't get work?"

The man is, of course, a hypothetical case. But if you think his counterpart does not exist in reality and in appalling numbers, you are sadly mistaken. The International Labor Office at Geneva has just issued a statement which declares that at least 25 per cent of all the world's 30,000,000 unemployed are less than twenty-five years old.

But wait, despairing youth! There may be an end in sight for all this. America has an idea. It may work and it may not, but at least something is going to be done. The President of the United States is speaking...

"I have determined that we shall do something for the nation's unemployed youth because we can ill afford to lose the skill and energy of these young men and women. They must have their chances in school, their turn as apprentices and their opportunity for jobs—a chance to work and earn for themselves."

"In recognition of this great national need I have established a National Youth Administration, to be under the Works Progress Administration."

### \$50,000,000 for Youth.

Out of the \$4,880,000,000 which Congress in the emergency relief appropriation act of April 8 turned over to Mr. Roosevelt that he might sink public dollars into the mire of depression to make a foundation for a sturdy structure of sound prosperity, \$50,000,000 will be poured as a pylon to support the new NYA during its first year.

As chairman of the executive committee of the NYA, the President named Miss Josephine Roche, assistant secretary of the treasury. She was long a professional champion of youth and later, as a coal operator, waged the battle for the rights of young men and women in different

form. As executive director she will have Aubrey Williams, first assistant to Harry L. Hopkins, works progress administrator.

These two will set up the organization which will execute the challenge taken up by the President to remove youth from the depths of disillusion and defeatism and the dangerous radicalism which so often arises from such conditions. Youth in the case of the NYA is limited to men and women between the ages of sixteen and twenty-five. Here are the services the organization will attempt to perform:

1. Find employment in private industry for unemployed youth. "Work designed to accomplish this shall be set going in every state in order to work out with employers in industry, commerce and business, ways and means of employing additional personnel from unemployed young people.
2. Train and retrain for industry

the White House, will be "to mobilize the industrial, commercial, agricultural and educational forces to provide employment and other practical assistance to the unemployed youth; to develop and carry out a co-ordinated program of work and work opportunities, job training and retraining for unemployed youth, utilizing all existing public and private agencies, industries, schools and various training facilities which can assist in meeting various phases of the problem."

### How Money Will Be Spent.

These tasks will all be undertaken with a view of furnishing youths (who are eligible for relief) compensation for work they may do on their new jobs, or expense money if they are going to school.

Boys and girls over sixteen who have been forced to stop attending high school because they have no money for car fare, lunches and incidentals will be given an aver-

age of \$6 a month to enable them to complete their courses.

### 3. Provide for continuing attendance at high school and college.

### 4. Works-relief projects designed to meet the needs of youth.

An estimated 150,000 youths will receive job training of some sort; 100,000 will be aided in finishing their high school courses; 120,000 will be assisted in pursuing college education, and additional thousands will be given financial aid to enable them to take post-graduate work. Many more may be absorbed without cost through the finding of jobs in industry.

The smallest unit in the set-up will be the local or community committee. This will be under the supervision of the state administration, which in turn will report to Washington headquarters. Efforts will be concentrated upon youths who are out of work and no longer financially capable of attending school.

The tasks of the various divisions, according to the announcement from

the White House, will be "to mobilize the industrial, commercial, agricultural and educational forces to provide employment and other practical assistance to the unemployed youth; to develop and carry out a co-ordinated program of work and work opportunities, job training and retraining for unemployed youth, utilizing all existing public and private agencies, industries, schools and various training facilities which can assist in meeting various phases of the problem."

### 5. Take National Census.

Work relief youths will also be

kept busy taking a national census

of all youths in the United States

between sixteen and twenty-five.

To secure employment, the NYA will ask industrial employers to hire youths as apprentices under special arrangements. Governmental bureaus, county, municipal and state, will be asked to take apprentices and train them for public service. Concerning the latter the NYA said:

"The opportunity afforded by this

type of work should be used to de-

velop a new type of trained public

servants, rather than to merely add

to the immense groups of men and

women who now clamor to get into

government service."

It has been called possible that

this may overshadow permanent

lution of this whole problem of un-

employed youth will not be attained

until there is a resumption of nor-

mal business activities and opportu-

nities for private employment on

wide scale. I believe that the na-

tional youth program will serve the

most pressing and immediate needs

of that portion of unemployed youth

most seriously affected at the pres-

ent time."

The NYA is a definite step toward

solving the problem of unemployed

youth in America. What will be

done about the remainder of the six

or seven million unemployed youths

in other parts of the world is being

considered by Geneva's Interna-

tional Labor office, with the object

of doing away with the discontent

that often results in serious social

dangers. It is particularly worried

about the method which is being

used to a wide extent by many Eu-

ropean nations—military conscrip-

tion. Forced labor camps and in-

corporation of young men in other

organizations more or less of a

military character it deplores:

"Attendance at such unemploy-

ment centers should be strictly vol-

untary, should exclude any idea of

military training, and these centers

should only undertake work which

under prevailing economic condi-

tions would not be carried out by

workers in normal employment."

### Serious Problem.

In the ILO, subjects usually re-

ceive two discussions, one when they

are first called to attention, and an-

other the following year, after all

the available information has been

gathered. This question is conside-

red too urgent to hold over.

The real seriousness of the prob-

lem, according to the ILO, "is to be

found in the particularly unfortu-

nate consequences of continued idle-

ness for young people, more than

older persons. If adults, after long

years of work, are unable to face

the difficulties of life, on the other

hand how can young people on their

own resources successfully resist

the demoralizing effects of prolonged

unemployment?"

The remedies for the situation,

as held up by the ILO, are pretty

much the same as the plan which

the President has outlined for this

country. They include work-relief,

job placement and apprenticeships,

and vocational training and retrain-

ing.

It will be interesting to see what

effect the President's NYA will

have on the youth of our nation.

Says he:

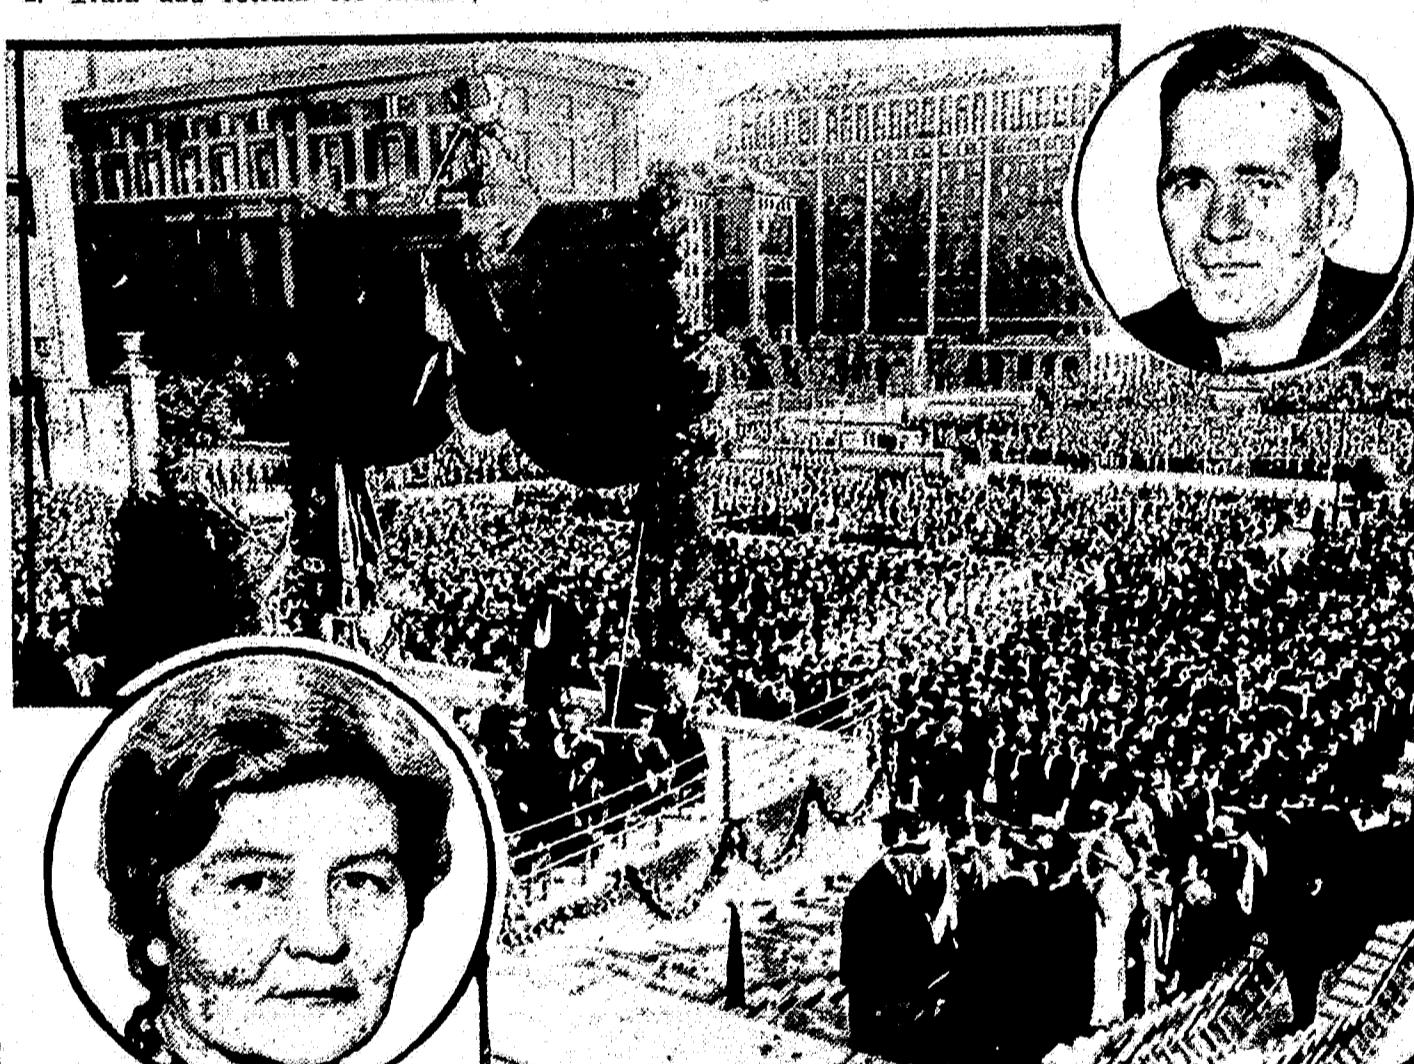

"The yield on this investment

should be high."

### Burial in Arlington Cemetery

Confederate veterans may be buried in Arlington cemetery under the following conditions: "Persons dying in the District of Columbia or in the immediate vicinity thereof who have served in the Confederate armies during the Civil war, may be buried in the Confederate section of the Arlington National Cemetery without additional expense to the United States, upon the certificate of Camp Numbered 171, United Confederate Veterans of the District of Columbia, that such persons are entitled to burial under the authority given in this section; Provided, that all such interments shall be under the supervision and subject to the approval of the secretary of war."

1. Miss Josephine Roche, Chairman of the Executive Committee of the NYA. 2. What Is to Become of These Young People Now They Are Out of School. 3. Aubrey Williams, Executive Director.

## THE OXFORD COUNTY CITIZEN, BETHEL, MAINE, THURSDAY, JULY 18, 1935

## Life Begins at 50 for Ace Inventor

John R. Gammeter of Summit county, Ohio, has obtained more United States patents on inventions than any other man in the country. At fifty he decided that he was going to do the things he wanted to do. He quit his job as experimental engineer with a large rubber company, acquired a 4,000-acre game preserve, some fine hunting dogs and a new outlook on life.

A strong prejudice exists in many minds against economic control. Any form of control means power which may be directed into constructive as well as destructive channels. The electric current passing along the wire may be used either to warm and light our homes or for the purpose of self-destruction. Economic power therefore in itself is neither good nor evil. Its use determines its ultimate value.

Economic power means concentration of wealth which in turn means accumulation of profits which again means activity in some industry beneficial to humanity; otherwise the public would not have purchased that particular commodity. Whether labor was exploited in order to produce profits is another question, and should be settled upon an entirely different basis than the destruction of the means through which labor was made possible and the public benefited.

We destroy initiative and creative enthusiasm the moment we deprive industry of the power to accumulate profits. The inevitable question arises, can we have material prosperity without economic control? The driving force in any kind of business is not altruism. Many business men, however, are imbued with the altruistic spirit and cheerfully give away large sums of money, which must be made out of profits before it can be distributed for the public good. Most of our colleges, libraries, art museums, public parks, and many other institutions were grants from men, who, because they had accumulated large wealth, were able to make the gifts. Money must be earned before it can be given away. We cannot give something we do not possess. This does not argue, however, that the concentration of wealth which means economic control is not dangerous; frankly it is, but again, like dynamite, it depends upon how that power is used.

**Burial of Chinese**  
The Chinese legation says that Chinese are buried in this country as other persons are buried, complying with the health laws. They are buried in hermetically sealed caskets in cemeteries wherever they have lots. However, every seven years special permission is obtained to remove the remains of dead Chinese, which are sent back to China to be buried.

## POTPOURRI

## Refuses to Rear Young

There is one bird in North America which refuses to rear its own young. It is the cowbird. The females deposit their eggs in the nests of other birds. They lay several eggs, but never more than one in each nest. As the young cowbird is larger than the other youngsters, it usually hogs the food.

When Cardinal Wolsey charged his friend Cromwell—not Oliver—to

Ambition fling away ambition, he was giving very bad advice.

The old gentleman, who had got "in bad" with Henry the Eighth was on his way out of the picture.

But it was the wrong kind of ambition which got him into trouble with the Big Boss.

The prelate's real ambition was to run the country and the king and everybody else.

And the king, being able to do his own thinking, preferred to conduct the affairs of the country as he saw fit.

• • • • •

Keep your ambition working.

You will need it.

No great man has been without it.

The necessity of it ought to be dwelt upon in the schools.

If all men and women were content to follow the old tracks, to do whatever is done in the same way that had always been done, they would be about as progressive as a hill of ants, and about as useful.

But there is something that you can do, and do well, if you have average common sense and the will to keep everlastingly at the task you have set yourself.

Find out what it is. Do not choose it because you think it may bring you popularity.

You'll get popularity if you suc-

Mrs. Marie Konecny of Berwyn, Ill., the mother of an eleven-year-old boy, and Francis Schwartz of Chicago, were acclaimed the individual man and woman champions of the Czechoslovak Union of America at the national gymnastic, athletic and calisthenic exhibitions in Cleveland, Ohio.

ceed, and you won't need to look around for it.

When you undertake anything keep at it, and carry it through.

If, when studying, you find yourself turning page after page of a book, following all the printed lines, and not noting anything that is there, there is something the matter with your will.

Keep that will at work. Train it to be your boss. By and by it will keep you at work, and then you can begin to think about doing great things.

But if the will isn't exercised, it will refuse to work, and you will go through life accomplishing about half as much as you ought to accomplish, and which you must accomplish if you want to be anything but just an average lazy, unsuccessful human being.

There are too many of such people in the world now. Much too many.

Don't be one of them. Be your own boss as far as it is possible.

## SYNOPSIS

Jim Saladine listens to the history of the neighboring Hostile Valley, with a slip of the mysterious, enticing "Huldy," wife of Will Ferrin. Interested, he drives to the Valley for a day's fishing, though admitting to himself his chief desire is to see the reputedly glamorous Huldy. "Old Marm" Pierce and her nineteen-year-old granddaughter Jenny live in the Valley. Since little more than a child Jenny had at first admired and then deeply loved young Will Ferrin, neighboring farmer, older than she, and who regards her still merely a child. Will takes employment in nearby Augusta. Jenny disconsolate. Bart Carey, something of a ne'er-do-well, is attracted to Jenny, but the girl repulses him, fearing that Will is coming home, now exulting, sets his long-empty house "to rights," and has dinner ready for him. He comes—bringing his wife, Huldy. The girl's world collapses.

acquaintance with the sun. Jenny would wonder at the other's beauty, and at the same time fear it and shrink from it with an instinctive alarm. Without knowing why, she wished to draw away from Huldy; and as though in proof of herself that she had no such desire, she spoke to the woman.

"Take off your coat," she said. "You and Will, you'll have to stay and visit; stay to supper."

Huldy smiled with faint amusement, yet obeyed; and Will sat down and talked in the old friendly fashion for a while; of his long absence, and his work in Augusta.

"I done well there," he said. "Saved good money. But I'm glad to be back, just the same."

He looked at Huldy proudly. "Huldy, here, she had so many beaus after her all the time, when I finally talked her into marrying me, I fetched her away from them quick's I could. Dunno how I ever got her, but I aim to keep her now."

Marm Pierce made a noncommittal sound; and Jenny said politely: "I hope you'll like, here, 'Mis' Ferrin!'"

Huldy looked at her husband. "I'd like being anywhere with Will," she said in slow deep tones. "I like big men!"

The two other women were uncomfortable; but Will was not. He beamed, and talked on, contentedly; but Huldy in the end would not stay to supper.

When they were gone, Jenny was silent, hurt without knowing how she had been hurt, wounded without being able to put her finger on the wound; but Marm Pierce was not in the least mystified.

"She's a hussy!" she exclaimed. "Will's cut him off a bigger piece than he can chew. She'll make him dance a pretty tune."

Jenny whirled toward the older woman. "If she's not good to him, I'll kill her!" she cried.

"So Marm Pierce perceived the girl's distress, and sought to ease her. "There, Jen," she said quickly. "Don't you mind! There's nought to do for Will now. You go read the Book of Proverbs! You'll find a heap of wisdom there. Wormwood will be his dish, soon or late. Maybe if he'd read his Bible, he'd have known better than to marry her; but I dunno. Many a man's let a woman take him with her eyelids, like the Bible says. Poor Will!"

"I'll . . ." Jenny whispered. "No and you won't," the old woman interrupted stoutly. She shook her head. "Nought you can do but would make it worse for Will, and for you, too, Jen. Stay away from him, from the both of them. Let fire burn, Jen. It will come to ashes by and by."

Summer was upon them now, and during the months that followed, Jenny saw Will not at all. There was a stir of new activity in the Valley, which served in some degree as a distraction. In July, a man named Seth Humphreys, from Augusta, set up a steam mill not far below Marm Pierce's farm; and now and then some one of the men who worked there, with a minor cut or wound, came to ask Marm Pierce to heal his hurt for him. She had a salve with virtues which were famous, and she could minister to the lesser physical ailments which sometimes attacked them.

When one of these men appeared, Jenny stayed usually in the background; but they were a harmless lot, rough and strong and spending their days in hard physical toll, yet toward a woman gentle and shy. Sometimes she saw one or two of them slipping through the open land

between the house and the woods toward the brook. A path from the mill cut through the woods direct to Carey's bridge.

"Going up to sample Bart Carey's rum," Marm Pierce guessed with a grim disapproval. "Jen, you keep away from them. Stay out of the woods, down that way. None of 'em to hurt you, less'n they was drunk; but I never did believe in putting ideas into a man's head. You stay away."

She had in fact some reasons for concern which she did not explain to Jen. People were apt to confide in this wise old woman, and she heard things Jenny did not hear. Amy Carey, Bart's sister, came one afternoon when Jenny had gone toward the brook, so that the old woman was alone; and Amy was troubled.

"The mill crew, they're around the house all the time," she explained. "And Bart, he's had a couple men staying there from Augusta, that let on they come to fish; but they don't bring home any trout. They go off down the brook every day, and come back at night, and no fish to fry. And they never come before."

Her eyes were uneasy. "It's that woman," she said. "I've heard 'em talk about her. They know her in Augusta; and Seth Humphreys, he did, too. One of 'em said the

"Somebody Might Come Along"

other night that's the only reason Seth come and put a mill in here; so's to be handy to her. He was hot after her, to hear their tell, before Will come along and married her."

Marm Pierce said assentingly: "I c'd see the kind she was, first time I laid eyes on her."

"Bart says she ain't more'n half decent to Will," Amy reported. "He says she's always taking a dig at him, and him too blind to see. Bart says he'd like to take a hoop-pole to her, the way she treats Will. Him and Will was always friendly."

The older woman nodded. "Will, he'll go along blind about so long and then he'll wake up," she predicted. "When he does, the fur's bound to fly. The Ferrins was always slow to get mad, but it ain't safe to face 'em when they got their dander up. Man or woman, it ain't wise to make too big a fool of Will."

"Bart says he acts like she was made of gold and cream," Amy confessed. "She's got Will walking tiptoe around the house." She was a moment silent, shivered faintly.

"The men act funny, after they've

seen her," she said. "It scares me, some . . ."

Marm Pierce nodded grimly. "I know," she agreed. "Talking loud, and bragging and blowing, and then a-whispering. But you're all right, Amy, with Bart there."

Amy turned homeward presently; but Jenny did not return for a further while. When she did appear, she gave no sign of what had happened; but she had learned, that afternoon, to understand Huldy through and through.

Leaving the house, she had set out at random toward the deep shade of the woods. She came to the brook below Will's farm, and stayed there by the stream a while, leaning against a tree, her hands behind her, her eyes shadowed, deep in long thoughts of him; and presently she crossed the stream where boulders gave a footing. Above her, a rocky precipice rose fifty or sixty feet abruptly from the head of the grotto pile that sloped down to the brook; but to one side there was a path she knew, where by a steep scramble she might come to the gentler slopes above. And it occurred to her that, going cautiously, she might have some far glimpse of Will, busy in his fields. The thought drew her irresistibly; she began to climb.

She meant not to speak to Will or show herself to him; yet to see him, even from far off, would be happiness.

The trail was steep and she was warm and panting. At the top of the rise, the path swung to the right, where broken ledges served like a flight of stairs, to debouch at last upon a smooth ledge like an epaulet on this shoulder of the hill.

Below the ledge there was a straight fall for sixty feet or more; and the ledge looked out across the lower trees across the sweep of valley. Jenny knew the spot of old, and loved it, too.

But when she came there today, Huldy was before her. Jenny saw her in a confused impression of naked flesh golden from the sun. Huldy lay at length on a mossy bank at the head of the ledge, where low junipers served as a screen on the side toward the house; and she must have heard Jenny's panting approach, for as the girl appeared she half-covered herself with a garment caught up quickly. Yet did not rise, but still lay there, looking at Jenny with that smile the girl found so disquieting.

Jenny for a moment could not speak; she stared at Huldy, and stared all around, and Huldy said in amused derision:

"There's nobody here only me!" "Somebody might come along," Jenny protested, her cheek crimson with shame for the other woman. "You hadn't ought to lay there like that. They'll see you!"

Huldy's dark eyes widened. "What if they did?" she countered. And Jenny found no answer that could be uttered calmly. Then Huldy spoke again. "I guess you're looking for Will," she said mockingly. "He's in the upper field."

Deep color stained Jenny's cheek and brow, and drained away and left her white and still. She shook her head. "No," she said, huskily. "No!"

"You've trafiled around after him a-plenty," Huldy insisted, in complacent scorn. "If you wanted him, why didn't you get him, Jenny?"

Jenny had no weapons adequate for this encounter; she could not hope—or wish—to meet the other woman on even terms. Yet there lay in her that long devotion to Will which was like a rock of strength upon which she could lean; and she found suddenly that she knew many things she had not guessed before.

"I'd not want what you want from a man," she said steadily. "Nor bait him the way you do."

Huldy's eyes narrowed in dry anger. "Nor you wouldn't get him, either," she retorted.

"But if I did, I'd know how to keep him," Jenny countered. "And that's one thing you'll never know!"

And she turned on her heel, so swiftly that she left Huldy in a sort of frenzy of rage. Jenny, dropping down the trail to the brook again, heard the other's harsh, strangling objurgations hideous in the sunned beauty of the afternoon; till the sweet brook song filled her ears, drowning ugly sounds.

And from that day Jenny understood Huldy, completely; and without word from Marm Pierce, or from Amy, or from any other at all. Yet, she went no more to the brook, or up the scrambling trail. Between her and Will there was a barrier raised which she could never seek to pass or set aside; and she accepted this fact, and found a way to clothe her grief and sorrow.

After that day in June when he and Huldy returned to the little house in the Valley, Jenny did not see Will till October. Ordinarily, by the third week in October, the alders and the birch saplings are stripped; the oaks and beeches are losing their topmost leaves. But this year the first deep frost was followed by no rain nor wind to tear the bright leaves from their tenuous hold, till in the last week of October frost gripped the land again.

It settled heavy in the Valley; and when the sun rose, the leaves were locked in an icy clasp, held in place by the very frost that was their destruction. Then as the sun climbed higher and the day warmed, the frost melted and at first by ones and twos and even by dozens and by scores, the leaves came down, falling silently, like a bright rain of color through the woods.

Jenny, at mid-morning, left the house and went past the barn toward the young second growth of birch and beech at the meadow-side, to watch this silent falling rain of bright leaves; and she was there, sitting on the stone wall, warm in the sun, when she saw a movement in the deeper shadows of the black growth, some two hundred yards away. Saw a man running!

Her heart swelled with the quick perception that this was Will. He came at speed, his hands clenched and pounding at his sides, his head forward as though reaching out to fill his lungs with air; and she thought he came to seek her, and thus thinking she rose to her feet and stood waiting in a tender readiness to receive and comfort him.

But he emerged from the spruce wood, and without pause swung to the left and disappeared again.

She understood, after a moment, that he had gone toward the steam mill down the Valley; and he was in such a haste of passion that even from this distance she seemed to feel the fury in the man.

It would not be fear that drove him! Will would not thus run in fear. It must be anger, then; and swift conjecture lashed her with biting strokes, while she went slowly, like one dazed, across the open to the house, and into the kitchen there.

Marm Pierce, at her coming, looked up, and saw her countenance. "What's the matter, Jen?" she asked sharply. "What's wrong with you?"

"Will," the girl whispered. "He came running along the path, and went down toward the steam mill. Running, like he was awful mad."

Silence for a long moment, and Marm Pierce nodded in slow comprehension. "Well, it was bound to come," she said, half to herself. "He's found out, somehow, about Seth Humphreys."

"But Granny," Jenny cried. "I . . ."

Marm Pierce shook her head. "Nought to do, child," she said gently. "Nought but set and wait. Will's found out he's made a bad trade; but he's the only one can get him out of it."

And she came to the girl, and put her arm around Jenny's shoulder. "Rest you, Jen," she said. "It's the hard part a woman has, to stay quiet while her man's in danger; but there's no other way!"

It's a Great Kindness to Trust People with a Secret. They Feel So Important While Telling It---R. Quillen

THE OXFORD COUNTY CITIZEN, BETHEL, MAINE, THURSDAY, JULY 18, 1935

WOMAN LEADS NAVAJOS

Mrs. Laura McCabe, at the age of forty-three, is the only woman leader among the 45,000 Navajos in northwestern New Mexico. In addition, the squaw has privileges denied white women in some states. She owns property. Her children belong to her clan and upon her death her daughters inherit her property. She does the work, tends the sheep, shears the wool and weaves into blankets. She handles nearly all of the barter with Indian traders and controls the family's meager supply of cash.

Pigs Thrive on Bananas

There's a faster way of producing ham and bacon than feeding pigs all the corn they will eat. "Give them some bananas," says Hawaii producers.

Bear, as I said quickly, but he is a tree trunk as down Mouse can, at out. Danny to keep the tree between them. He gave up running and pigs. A 25 per cent ration of the fruit puts on weight more rapidly than a full grain ration.

Big Black Beret

The forward movement of this huge black velvet beret by Mme. Agnes is emphasized by the clever use of inverted tucks in fan-like arrangement. The simple band knotted on the left side is of black belting ribbon.

Flourished 4000 B. C.

The people who lived on the mound lepe Gawa, 14 miles from the Biblical city of Nineveh—flourished at about 4,000 B. C. In the dim twilight of history, says the Philadelphia Record. At the time they were making their painted pottery and carving obsidian, the ancestors of the Greeks were crouched in caves during their own Stone age and only savages were living in the Americas. It was 800 years before the Egyptians would begin to think of piling stone on stone to form pyramids.

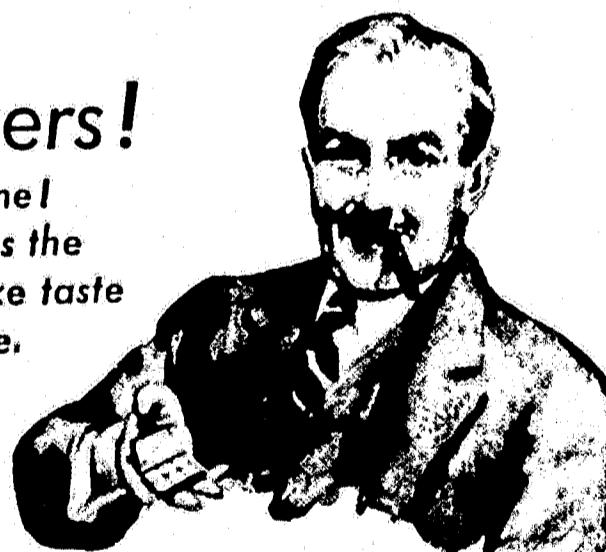

**Hint for Silk and Wool**  
Never allow silk or wool garments to become very much soiled before washing. If you do it necessitates rubbing to remove the dirt, or using water of too high a temperature. Both heat and rubbing are bad for silk or wool. They both require tepid water and just squeezing up and down in the suds.

STAR DUST  
MOVIE AND RADIO

By VIRGINIA VALE

PRACTICALLY everybody is up in arms over the change in Merle Oberon's looks. You'll recall, perhaps, that Samuel Goldwyn announced that she was to be turned into a regular American girl—and unfortunately the transformation has taken place—so far as her looks are concerned, at least.

Her eyes no longer look tilted. Her forehead is still very high, of course, but it's a defect rather than a claim to beauty. She has lost every bit of the exotic appearance that made her individual, and looks like just one more girl who works in pictures, and it's a crying shame. Her worst enemy couldn't have taken sweeter revenge on her than this change that has been effected in the name of motion pictures.

The Adrienne Ames-Bruce Cabot matrimonial split verifies the predictions made as far back as the time when they were married, but it does seem a shame that two such nice young people couldn't make a go of things, doesn't it?

Meanwhile Stephen Ames and Raquel Torres seem happier than ever. She is going to make a picture in London (as who isn't?), so they're closing their beautiful new home and departing from Hollywood together.

Remember Dorothy Dell? Her sister has been appearing with Arneholm's band, and has made such a hit that Paramount is making screen tests of her.

And so some of you old-timers remember Sessue Hayakawa, one of the favorite villains of the silent films? He's now in Shanghai, heading a troupe of Japanese actors.

"So Red the Rose" seems to have been just one long battle for Pauline Lord, the celebrated stage actress, so she and Paramount finally called it quits and she left the cast. Janet Beecher will have her role.

Mary Pickford is finally going to direct pictures; she'll make two for United Artists, but will not act in them. Charlie Chaplin will direct one.

It looks as if Universal's "Stormy" would be a really thrilling picture. Rex, the wild horse, will be featured, and Navajo Indians are rounding up one thousand wild mustangs in Arizona for the production.

Warner Brothers are so pleased with the way the film version of "Midsummer Night's Dream" turned out that they're going to film four more of Shakespeare's plays—"Twelfth Night," probably with Marlon Davies; "As You Like It," with Josephine Hutchinson, and "A Comedy of Errors," with James Cagney, and "The Merry Wives of Windsor," with Guy Kibbee. What good news for high school students who have to read the plays!

Theatrical producers are trying to lure Mary Boland and Charles Ruggles away from the movies for a couple of new plays.

Leslie Howard has written a play (don't ask me how he could find the time), but turned bashful about taking credit for it. It's said, so he gave the name of the author as Philip Howard.

The popularity of the "G-men" movies has started a lot of things. Phillips Lord, already famous on the air as "Seth Parker," has written a

dramatic series about G-men and lined up a radio sponsor for his sketches. Quite a change from the Sunday night hymn programs that made Seth Parker famous.

Now it's the lovely Irene Dunn who's decided to change the color of her hair. Technicolor trouble?

Jean Parker has been having a grand time vacationing in New York. Seems funny that once upon a time people who dwelt in Hollywood complained that they were stuck there for years and years as they were—and never got a chance to see new plays or new people. Now they leap into a plane and are in New York before their eastern friends know they're coming.

It also seems funny that Micky Nell has a son who's practically grown up. The young man has been visiting in Hollywood with his mother, and every one is delighted with him and with his resemblance to his famous father.

Constance Bennett and Claudette Colbert have both been laid low by influenza.

Loretta Young has one admirer, a ten-year-old boy, who lives only to be worthy of her. He's never seen her except on the screen, but his admiration for her has had an effect that countless lectures from his mother failed to achieve.

Now it's John Gilbert who is going to try the personal-appearance route back to popularity—or down into oblivion. Despite his temperamental storms, he still has so many friends among the movie goers that it seems as if there must be a place for him in pictures.

Marlene Dietrich is going to make a modern picture shortly—but she'll probably wear at least one costume with feathers on it. Apparently she has learned that the public has had enough of trick frocks and ponderous scenery as a substitute for plot.

ODDS AND ENDS . . . Now it's Metro that has signed up an American tenor who made his reputation in Europe; he's known in Norway, where he's an established singer, as Franco Foresta . . . Louisa Fazenda and her husband, who is Hall Wallis, a motion picture executive, have gone to Alaska for a vacation . . . Ramon Novarro is going to South America with a picture he made especially for that market . . . Boris Karloff is to do a horror picture called "The Electric Eye" . . . Marlon Davies is president of the Motion Picture Relief Fund for the third year in succession.

Prime Minister Not Elected  
The prime minister, or premier, of England, is not elected. He is named by the crown. The nomination is somewhat restricted, however, since a prime minister could not enter on the business of government without the confidence of the house of commons, and such a vote of confidence is essential to retention of office. That is, when one party loses power the prime minister resigns, and with his resignation his cabinet is dissolved. There usually is a recognized leader of the opposition party, to whom the formation of a new cabinet can be intrusted.

Common Duty to Wage  
Warfare on House Fly

Effort to change the name of the common house fly to typhoid fly is the motive behind a movement started by Dr. L. O. Howard, government entomologist.

The name, "house fly," is too tame. The fly is accepted as a nuisance, but not considered as the dangerous insect it is. Government health authorities have proved that the common flies that buzz about homes and kitchens carry bacteria which can infect human beings with at least a dozen diseases in addition to typhoid.

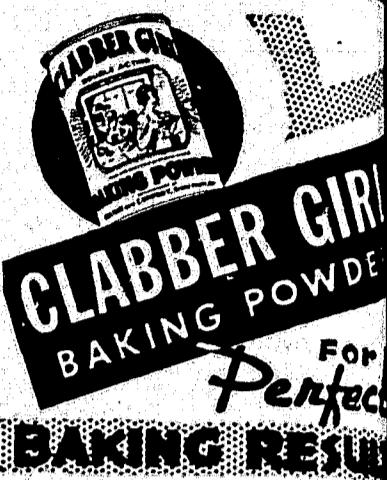

Doctor Howard states, "Even if the fly were a creature difficult to de-

stroy, the failure on the part of people to make any effort to reduce its number could properly be termed criminal neglect. As it is now an easy matter to do away with flies, this neglect becomes an evidence of ignorance. . . . It is the duty of every individual to guard against the occurrence of flies upon his premises."

As Doctor Howard says, it is no longer difficult to rid a house of flies. A reliable fly killer when sprayed in a fine mist is the most effective method of ridding the house of flies and other insects.

Danger Signal  
Sure sign that should convince a young man that an older one thinks

he is foolish is that the old trains from talking to him.

LET US MAKE YOUR  
VACATION TRIP SAFER

BEFORE you start on your vacation trip, let us completely inspect your car. There is no charge for this service and it will assure you of a safer and more enjoyable trip.

For the convenience and safety of car owners Firestone has established more than 500 Auto Supply and Service Stores throughout the country, and thousands of Firestone Dealers are also equipped with complete Auto Supplies and complete Service Departments, to test and service your tires, brakes, batteries, spark plugs, in addition to power lubrication and crank case service.

AVOID THE DANGER  
OF BLOWOUTS

Firestone removes the danger of blowouts by preventing their main cause—internal friction and heat. This is accomplished by Gum-Dipping.

THERE ARE THREE QUESTIONS AND  
ANSWERS THAT WILL SOLVE YOUR  
PROBLEM OF WHAT TIRES TO BUY:

1 "Will the tread give me the greatest traction and protection against skidding?"

Recent tests by a leading University show that Firestone High Speed Non-Skid Tires stop a car 15% quicker than any other of the leading makes.

For eight consecutive years Firestone Tires have been on the winning car in the dangerous Pike Peak Race where a skid means death.

2 "Are they blowout-proof?"

Firestone Gum-Dipped Tires have the most amazing records for being blowout-proof of any tire ever built. In the grueling 500-Mile Race at Indianapolis, May 30th, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires. Not one of the 33 drivers had tire trouble of any kind.

Ab Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah, 3,000 miles, averaging 127.2 miles per hour, with temperatures as high as 120°, without tire trouble of any kind.

3 "Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

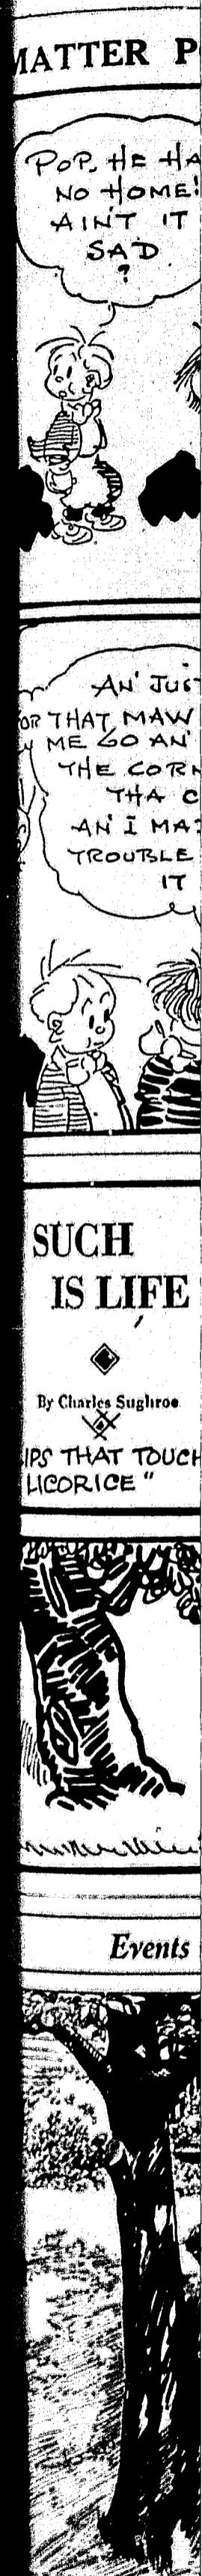

Firestone High Speed Tires not only give you more than 50% longer wear, but also lowest cost per mile. In fact, unequalled mileage records of thousands of car owners add undisputed evidence of the longer wear and greater economy of Firestone High Speed Tires.

Equip your car with a set of Firestone Gum-Dipped Non-Skid Tires, the safest tires ever built and avoid the dangers of skidding and blowouts.

You Always Get Better Quality at No Higher Price when You Buy a Firestone Tire with the Firestone Name and Guarantee—LIBERAL TRADE-IN ALLOWANCE FROM THESE PRICES

SUCH IS LIFE

By Charles Sughroe

IPS THAT TOUCH LICORICE"

Events in the Lives of Little Men

Preparedness  
Mr. B.—Now, why do you suppose the Campbells want to take lessons in French at their age?

Mrs. B.—Oh, didn't you know they had adopted a French baby? They want to understand what it says when it begins to talk.—Capper's Weekly.

Oratorial Munitions

You are sure there will be no mud slinging in your next campaign?

"Quite sure," answered Senator Sorghum. "My constituents have reached a state of mind where they won't be content with anything softer than brickbats."

He Helped Us So

Peevitt—I understand the Richmore fortune was started by a man who simply profited by other people's mistakes.

Quiggle—How could that be? Peevitt—He invented the little rubber tip for lead pencils—"Our Paper,"

Along the Concrete

Aren't We All?

Teacher asked for sentences using the word "beans."

"My father grows beans," said the bright boy of the class.

"My mother cooks beans," came from another pupil.

Then the third piped up: "We are all human beans."

Limit in Selfishness

Ethel—He seems a bit selfish.

Jack—Oh, he's frightfully so. Why, on our regular fall hunting trips, he always shoots somebody else's guide by mistake for a deer, instead of his own.

New Kind of Cake

Benita is very fond of strawberry shortcake, and her mother has made it several times recently.

When visiting her grandma a few days ago, she heard a peddler calling out "Strawberries, strawberries." She ran to the window to see him, then turned to grandma with the remark:

"I like shortberry cake!"—Indianapolis News.

Get Going

Bertram—What would you do if I kissed you?

Betty—Oh, grin and bear it.

THE OXFORD COUNTY CITIZEN, BETHEL, MAINE, THURSDAY, JULY 18, 1935

## Now How About Soundproof Celery?

Dr. Lloyd C. Shanklin, president of the United Brotherhood of Vegetarians, holds his odorless onion to the nose of Dr. Irene Austin, who doesn't mind at all. His method of cross breeding takes the sulphur out of the onion. In the onion it's the sulphur that smells. In you, it's the onion.

## It's Muddy in Matanuska Valley, Too

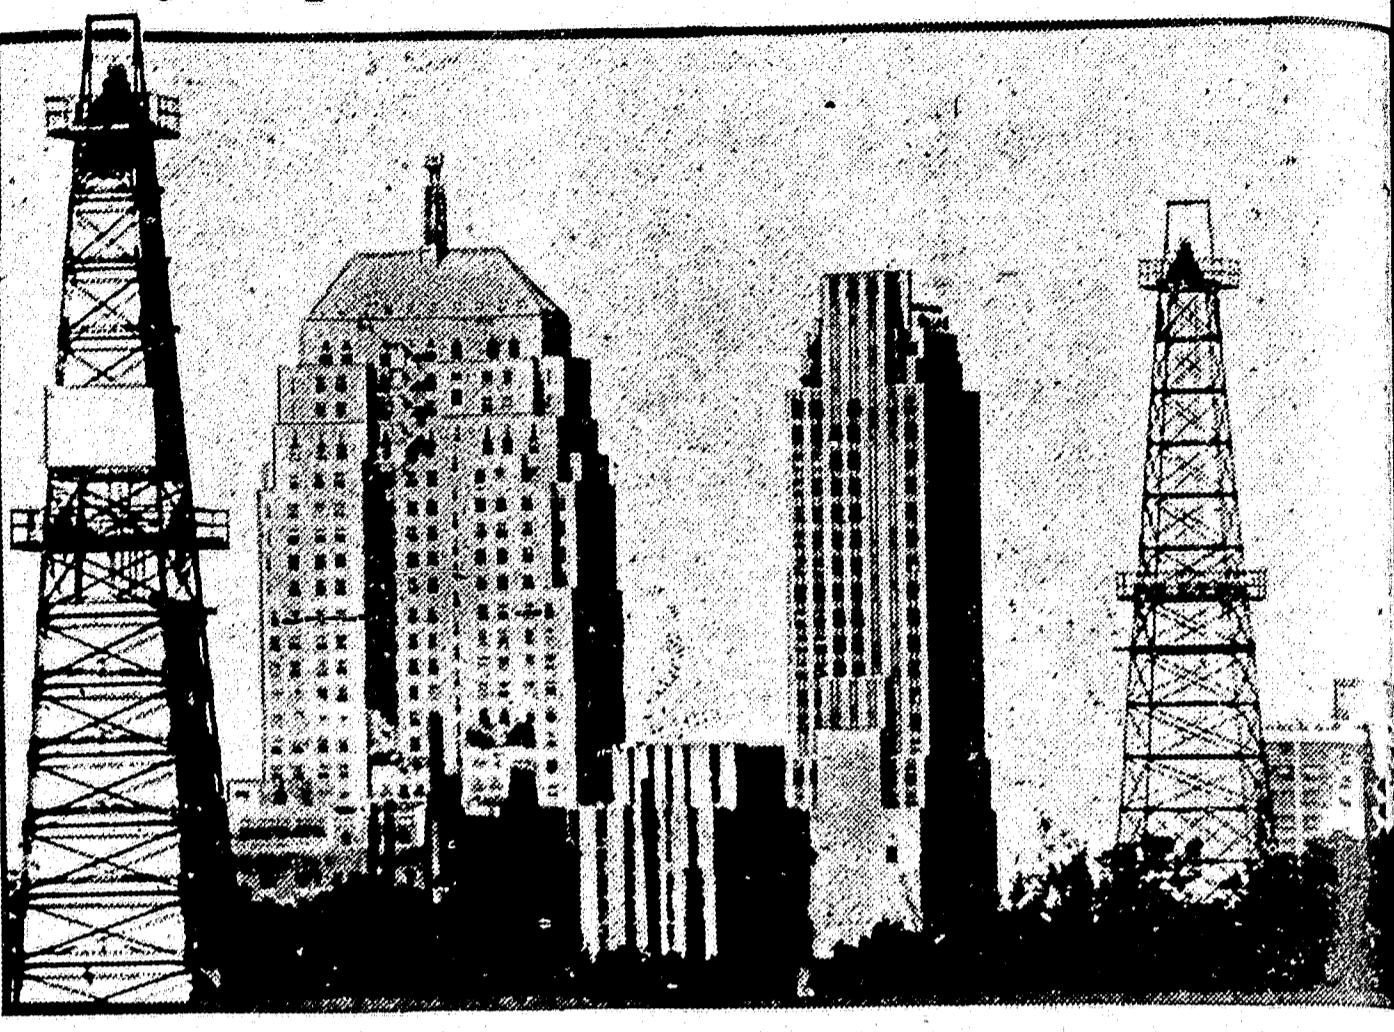

Minnesota farmers who migrated to the government colony in Matanuska valley, Alaska, find the mud is as deep as at their old home. Frank Bliss, construction boss for the colony, is seen with a friend trying to extricate their automobile from the mire.

## Seeing Themselves as Others Do

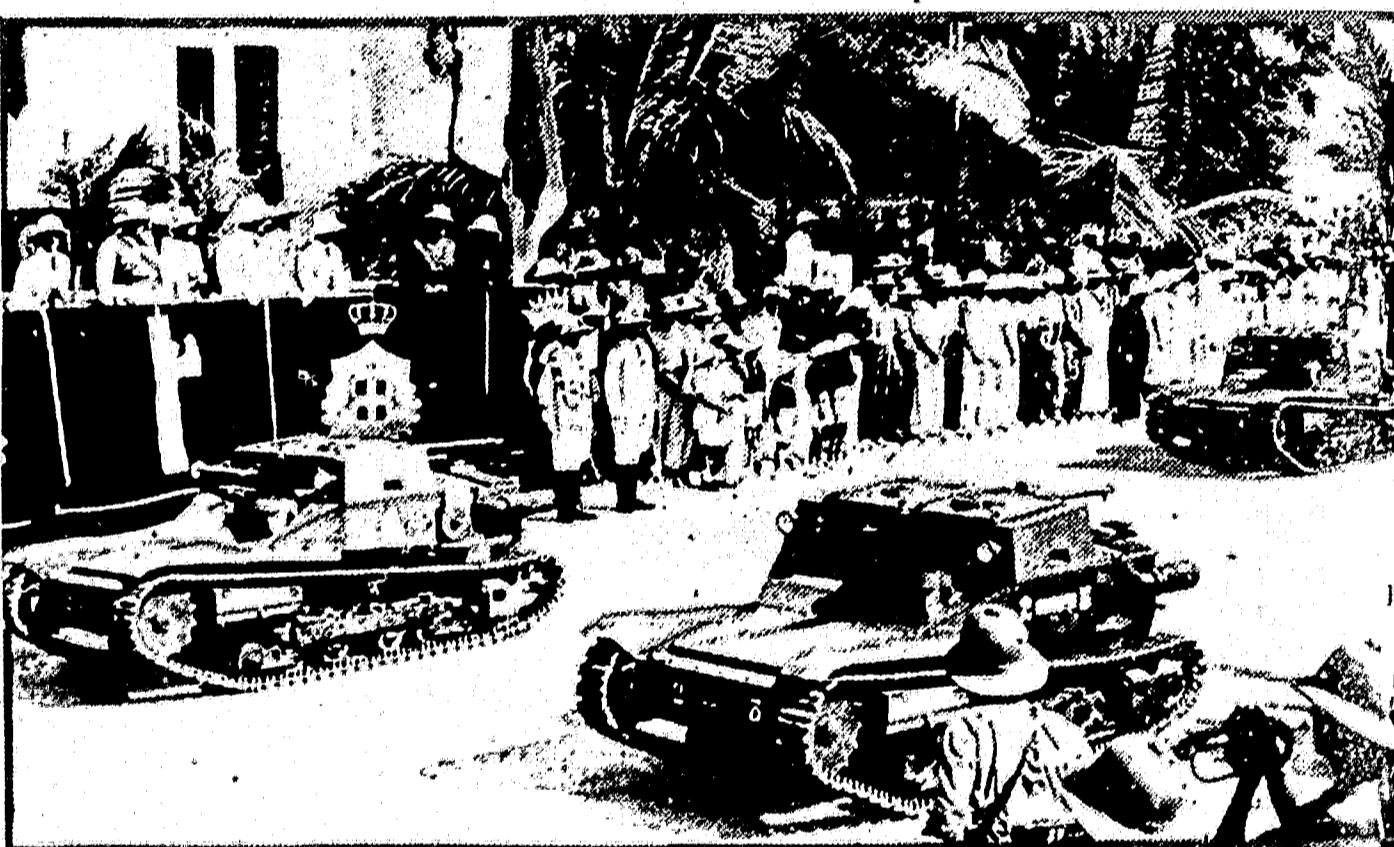

These peasants of the lower Volga are learning how the other half thinks they live. They are listening to the reading of the news printed in *Pravda*, which reprints dispatches in foreign newspapers concerning conditions in Soviet Russia.

## Skyscrapers May Give Way to Oil Wells

Oklahoma City's new zone law permits oil wells to be drilled in the heart of the business district as shown here. The day may come when tall buildings are torn down to make room for the skeleton-like towers.

## New Troops for Italy's Ethiopian Front

Fresh Italian troops and small tanks manned by Italians and natives, ready to wage Mussolini's proposed four years war in Africa, shown as they passed in review before Gen. Rodolfo Graziani (left, on stand) in Italian Somaliland.

## Indian Band Dedicates Navahopi Highway

Full-blooded Navajos lead the dedication party for the new \$1,000,000 Navahopi highway between Grand canyon and the Painted desert across Dead Indian canyon bridge. Gov. B. B. Moeur of Arizona accepted the highway for his state.

THE BETHEL NEWS

Volume XLI—Number

ECONOMIC HIGH

openings That Affect the  
Pals, Dividend Checks  
of Every Individual  
and International  
is inseparable from Local

On April 8, Congress, at the insistence of the President, appropriated \$4,830,000 for relief.

At that time Mr. Roosevelt said that by July 1 all the unemployed who were able to find work would have federal jobs available on the local relief rolls. July 1 came and passed and \$400,000,000 had been spent for 474 projects, though many men had been put to work. The reason is two-fold: first, it is important, the works are supposed to employ 3,500,000 workers. If that is done, the cost of a worker, including taxes, is held down to the figure of \$1,143.

Second, there has been an agreement between Secretary of the Interior Ickes and Administrator Hopkins. Mr. Ickes is head of the Public Works Administration, and Mr. Hopkins is in charge of the Works Progress Administration. The two bureaus overlap—and both claim jurisdiction over relief projects.

Mr. Ickes is of the opinion that money should be spent on projects of permanent value, such as dredging, eliminating harbor developments, etc. Mr. Hopkins, on the other hand, is concerned with getting men to work and is in favor of the adoption of projects which material costs are low. As far as possible, he favors projects which require little labor, and demand little material—woodland control, reforestation, etc. The two men are bitterly opposed, but it seems no compromise is possible.

Last night the Senate voted in and provided a supplement to the bill, and the question of just what the bill will do in outlining which projects will be controlled by Mr. Hopkins and which by Mr. Ickes. Result: Allowing the expenditure of \$25,000 are to be handled by Mr. Hopkins; all those costs are to be handled by Mr. Ickes. For example, if the Senate bill is approved, Mr. Ickes will have to say yes to a ditch, and so on, by Mr. Hopkins, in order to build highways, etc. Mr. Ickes builds trails. Mr. Ickes builds public buildings, etc. Mr. Ickes will landscape them. And so it goes. The works relief program is swinging into actual operation, and the question that remains is whether the 3,500,000 heads of families are still out of work.

The legislative situation is chaotic. Roosevelt's program is not so certain as was the House version. The Senate bill dramatically changes the state of talk about adjustment. The chance seems small that the new men will be able to find a home before September. It is a remarkable and unusual speed could be attained. The question is how some of the new stand:

EFFEY COAL BILL  
which amounts to

the NIRA coal code, is

to be applied and to be applied

President, even though he believed to be un

as well as unworkable.

AWFUL LABOR BILL

Has passed, is at
